

RESEARCH PAPERS

- Effect of a ropy-exopolysaccharide-producing culture on coagulation and syneretic properties of rennet-induced milk gels * 3

N.M. Rynne, T.P. Beresford, A.L. Kelly and T.P. Guinee

- Partial characterisation of bacteriocin produced by *Lactobacillus acidophilus* J1 isolated from fermented milk product dahi * 8

Aijaz Hussain Soomro and Tariq Masud

- Removal of salts from dairy processors effluent via reverse osmosis – results from lab and pilot-scale trials * 15

L.M. Palmowski, K. Jamil, C. Reynier, L. Farago, S. Jeyaseelan and K. Baskaran

- Estimation of ripening time of Pategrás cheese using physicochemical parameters and multivariate statistical techniques * 21

Belén Ramonda, Cristina Perotti, Susana M. Bernal and Carlos A. Zalazar

- Viability of calcium-alginate-microencapsulated probiotic bacteria in Iranian yogurt drink (Doogh) during refrigerated storage and under simulated gastrointestinal conditions * 25

A.M. Mortazavian, M.R. Ehsani, A. Azizi, S.H. Razavi, S.M. Mousavi, S. Sohrabvandi and J.A. Reinheimer

CLASSIC PAPER

- Close texture in Cheddar cheese by vacuum pressing 31

J. Czulak, N.H. Freeman and L.A. Hammond

OTHER

- Index – Australian Journal of Dairy Technology Vol. 62, 2007 34

* Peer-reviewed papers
