

CIRCUIT CELLAR

THE MAGAZINE FOR COMPUTER APPLICATIONS

#229 August 2009

EMBEDDED DEVELOPMENT

Start a New Embedded Development Project

A Novel Approach to Radiation Measurement

Compact Cable Detector Design

Power Factor Control Explained

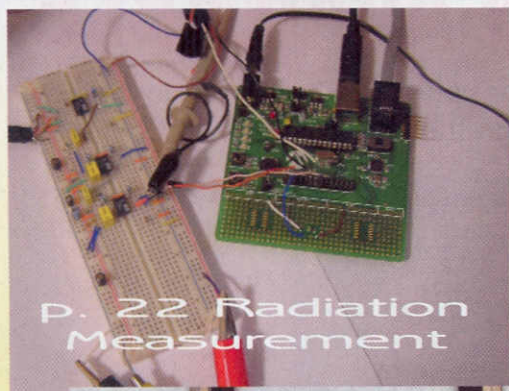

USB-to-Parallel FIFO Interface

INSIDE ISSUE

229

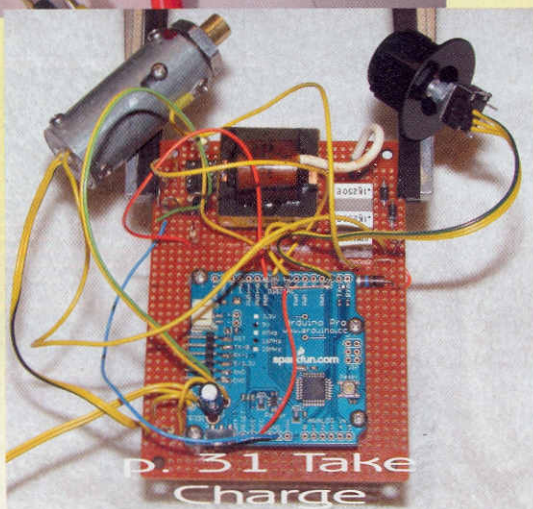

August 2009 • Embedded Development

- 14** **Get Started With Embedded Development (Part 1)**
"Bare Metal" Implementations and "CircleOS" Apps
Dale Wheat

- 22** **Infrared Radiation Measurement**
FFT Double-Beam Infrared Spectrophotometer
Michael Hamilton

- 38** **Cable Tracer Design (Part 1)**
Underground Cable Detection Made Simple
Kevin Gorga

- 31** **ABOVE THE GROUND PLANE**
A Blast for the Past
High-Voltage DC Dosimeter Charger
Ed Nisely
- 50** **THE DARKER SIDE**
Power Analysis Primer
From Power Line Measurements to PFC
Robert Lacoste
- 60** **FROM THE BENCH**
Threat Level Indication System
Implement a Simple USB-to-Parallel FIFO Interface
Jeff Bachiochi
- 68** **SILICON UPDATE**
Thin Is In
High-Profile Energy in a Low-Profile Package
Tom Cantrell
