February 2011 • Wireless Communications

- 18** **Parallel Processing Computer**
A Design for Solving Computation-Intensive Problems
Antonios Chorevas
- 28** **Wireless Access and Control**
A "MiWi" Network Card Reader
Carlo Tauraso
- 36** **Remote Humidity Control System**
David Penrose

- 16** **THE CONSUMMATE ENGINEER**
RF Design Review
George Novacek
- 44** **THE DARKER SIDE**
Don't Fade Away!
A Multipath Fading Experiment
Robert Lacoste
- 52** **ABOVE THE GROUND PLANE**
Parallel NiMH Cell Measurement
Ed Nisley
- 60** **FROM THE BENCH**
Serving Up BASIC
Jeff Bachiochi
- 66** **SILICON UPDATE**
Tune In, Turn On
Power Via Radio Waves
Tom Cantrell

- TASK MANAGER** **4**
Connectivity, Power, and Apps
C. J. Abate
- NEW PRODUCT NEWS** **8**
- TEST YOUR EQ SOLUTIONS** **15**
- CROSSWORD** **74**
- INDEX OF ADVERTISERS** **79**
March Preview
- PRIORITY INTERRUPT** **80**
Patently Insane
Steve Ciarcia
