CIRCUIT CELLAR

THE WORLD'S SOURCE FOR EMBEDDED ELECTRONICS ENGINEERING INFORMATION

DATA ACQUISITION

Build an MCU-Based Data Recording System

Miniature Accelerometers for Motion-Sensing Applications

Software & Design File Organization

PLUS

Flowcharting Simplified

- // Use a Flowcharting IDE to Write Code
- // Utilize Project Options
- // Choose an MCU
- // Select the Analog Frequency
- // Determine Frequency & PWM Outputs

SEPTEMBER 2012

ISSUE 266

acceleration data: M/S²

INSIDE ISSUE

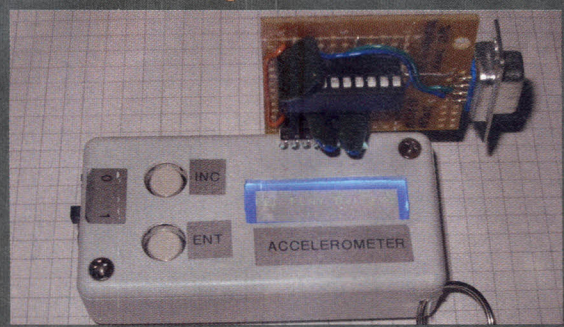

266

September 2012 • Data Acquisition

- 18** **MCU-Based Environmental Data Logger**
Brian Beard
- 32** **DesignSpark chipKIT Challenge Winners**
- 38** **Miniature Accelerometers**
DIY Acceleration Data Acquisition
Mark Csele

Build a Digital Accelerometer

p. 38

Get Started with Flowcode

p. 66

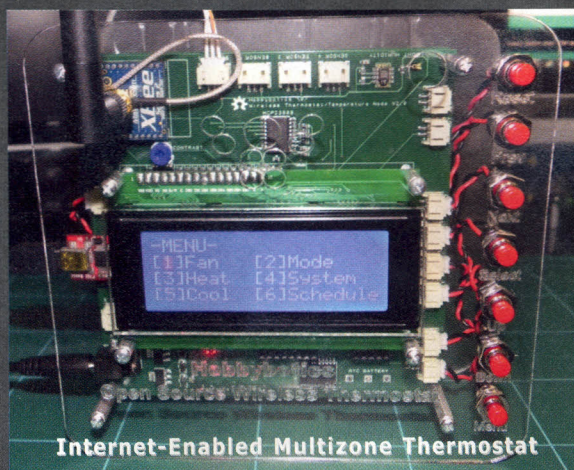

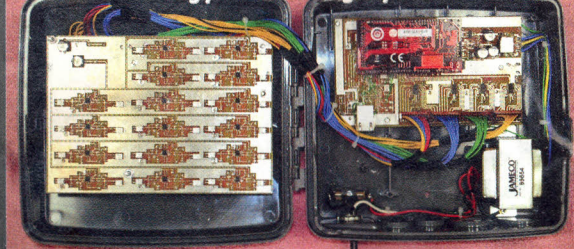

- 48** **EMBEDDED SECURITY**
Hardware-Accelerated Encryption
Patrick Schaumont
- 58** **THE CONSUMMATE ENGINEER**
Project Configuration Control
Family Tree Drawing & Document Archiving
George Novacek
- 62** **LESSONS FROM THE TRENCHES**
Software & Design File Organization
George Martin
- 66** **FROM THE BENCH**
Flowcharting Made Simple
Use the Flowcode Flowcharting IDE to Write Code
Jeff Bachiochi

Innovative chipKIT Design Projects

p. 32

Energy-Monitoring System

Internet-Enabled Multizone Thermostat
