Accreditation and Quality Assurance

Journal for Quality, Comparability and Reliability in Chemical Measurement

Volume 14 Number 12 December 2009

EDITORIAL

De Bièvre P: Manufacturing a longer chain logically requires manufacturing more than one link; thus is logically manufactured a longer metrological traceability chain... **645**

GENERAL PAPERS

Haerri H-P: Trace gas analysis for the evaluation of zero air generators **647**

Tshilongo J, Botha A, Janse van Rensburg M, Leshabane N, Ntsasa NG: FTIR and GC as complementary tools for analysis of corrosive gases **655**

van Rensburg MJ, Botha A, Ntsasa NG, Tshilongo J, Leshabane N: Towards the simultaneous detection of the low nmol/mol range of CO, CH₄ and CO₂ in nitrogen using GC-FID **665**

Spitzer P, Fisicaro P, Seitz S, Champion R: pH and electrolytic conductivity as parameters to characterize bioethanol **671**

PRACTITIONER'S REPORT

Hoppe M, Schley P, Uhrig M: Metrological issues in energy measurement on biogas **677**

SELECTED PRESENTATION

Ußner M, Müller-Langer F: Biofuels today and tomorrow: effects of fuel composition on exhaust gas emissions **685**

DISCUSSION FORUM

Willink R: Comments on "Lectures for chemists on statistics II. The normal distribution: a briefer on the univariate case" **693**

LETTERS TO THE EDITOR

Klenovsky P: Comment on "Assessing publicly financed metrology expenditure against economic parameters" **701**

Poposki N, Majcen N, Taylor P: Authors' reply to the comment on "Assessing publicly financed metrology expenditure against economic parameters" **703**

Tasić T: A disclaimer regarding article "Assessing publically financed metrology expenditure against economic parameters" **705**

NEWS AND ANNOUNCEMENTS

The ISO Concept Database ISO/CDB released New tool for standards development and use of standards **707**

CALENDAR OF EVENTS

Congress, conferences, workshops and courses **709**

FORTHCOMING ARTICLES IN PRINT

published online and citable with the DOI (Digital Object Identifier) can be found at springerlink.com
