Accreditation and Quality Assurance

Journal for Quality, Comparability and Reliability in Chemical Measurement

Volume 16 · Number 1 · January 2011

EDITORIAL

Does accreditation ensure competence in measurement?

P. De Bièvre 1

REVIEW

Hidden contributors to uncertainty and accuracy of results of residue analysis

Á. Ambrus · A. Zentai · J. Sali · I. Ficzer 3

GENERAL PAPER

Use of the 'characteristic function' for modelling repeatability precision

M. Thompson · B.J. Coles 13

PRACTITIONER'S REPORT

Measurement uncertainty evaluation and in-house method validation of the herbicide iodosulfuron-methyl-sodium in water samples by using HPLC analysis

A. Droic · A. Pintar 21

DISCUSSION FORUM

The meaning of measurement in metrology

R. White 31

SELECTED PRESENTATION

The US Pharmacopeia: interfacing chemical metrology with pharmaceutical and compendial science

W.F. Koch · B. Ma 43

TUTORIAL

Recommendations on quantities, symbols and measurement units for publications in ACQUAL: preparation of tables and graphs

W. Richter 53

NEWS AND ANNOUNCEMENTS

CITAC Award 2010: Three Most Interesting Papers in Metrology in Chemistry 55

Graduation ceremony at JRC-IRMM of the first graduates of the Euromaster Measurement Science in Chemistry 57

CALENDAR OF EVENTS

Congress, conferences, workshops and courses 59
