Accreditation and Quality Assurance

Journal for Quality, Comparability and Reliability in Chemical Measurement

Volume 16 · Number 10 · October 2011

EDITORIAL

Trade disputes involving chemical (analytical) measurement results can be won by developing and developed countries alike
P. De Bièvre 477

REVIEW

Definitions of 'measurement'
R. Dybkaer 479

GENERAL PAPERS

Dark uncertainty
M. Thompson · S.L.R. Ellison 483

Metrological concept for comparable measurement results under the European water framework directive: demonstration of its applicability in elemental analysis
D. Schiel · O. Rienitz · R. Jährling · B. Güttler · R. Matschat · H. Scharf · J. Birkhahn · G. Labarraque · P. Fiscaro · U. Borchers · D. Schwesig 489

PRACTITIONER'S REPORTS

Interlaboratory comparison for the determination of pesticide residues in Chinese cabbage
B. Kim · S. Ahn · Y. Mitani 499

A proficiency test scheme for the quality control of black tea and development of quality control material for internal quality control
C. Baltacı · H. İlyasoğlu · S.B.Ö. Sarıkaya · S. Cavarar · N. Yaylı 507

Results and effects of homogeneity and stability studies carried out by X-ray fluorescence on the new reference material BAM-H010

M. Ostermann · A. Berger · C. Mans · C. Simons · S. Hanning · A. Janßen · M. Kreyenschmidt 515

Use of multivariate statistical analysis to evaluate experimental results for certification of two pharmaceutical reference materials
W.F. de Carvalho Rocha · R. Nogueira 523

CALENDAR OF EVENTS

Congress, conferences, workshops and courses 529
