Accreditation and Quality Assurance

Journal for Quality, Comparability and Reliability in Chemical Measurement

Volume 16 · Number 2 · February 2011

EDITORIAL

The qualifier "primary" should not be used too lightly in the context of measurement

P. De Bièvre 61

GENERAL PAPER

Some metrological aspects of the comparison between two ordinal measuring systems

E. Bashkansky · T. Gadrich · D. Knani 63

PRACTITIONER'S REPORTS

Soil sampling uncertainty on arable fields estimated from reference sampling and a collaborative trial

U. Kurfürst · U. Buczko · C. Kleimeier · R.O. Kuchenbuch 73

On the use of the 'uncertainty budget' to detect dominant terms in the evaluation of measurement uncertainty

M. Solaguren-Beascoa Fernández 83

Application of a special in-house validation procedure for environmental-analytical schemes including a comparison of functions for modelling the repeatability standard deviation

L. Brüggemann · R. Wennrich 89

DISCUSSION FORUM

Key metrological issues in proficiency testing—response to "Metrological compatibility—a key issue in further accreditation" by K. Heydorn

I. Kuselman · A. Fajgelj 99

LETTER TO THE EDITOR

Measuring with zero measurement uncertainty a primitive quantity

X. Fuentes-Arderiu 103

TUTORIAL

'Verification' versus 'validation': a terminological comparison

R. Dybkaer 105

BOOK REVIEW

Piotr Konieczka and Jacek Namieśnik: Quality assurance and quality control in the analytical chemical laboratory: a practical approach

D.B. Hibbert 109

NEWS AND ANNOUNCEMENTS

ILAC released document on policy for uncertainty in calibration 111

Springer in the International Year of Chemistry 2011 113

CALENDAR OF EVENTS

Congress, conferences, workshops and courses 115
