45 10 Emerging Technologies

Real-time search. Biofuels from photosynthetic microbes. Engineered stem cells. Green cement. Our annual list of the emerging technologies that will have the biggest impact on our world.

By TR EDITORS

■ www.technologyreview.com/tr10 Watch video reports on the technologies featured in the TR10.

62 China's Internet Paradox

Will China's Web, like its larger economy, comfortably combine extraordinary growth with government repression?

By DAVID TALBOT

14 From the Editor

NOTEBOOKS

10 Biofuel Backlash

Subsidies for corn ethanol are hurting people and the planet.

By C. Ford Runge

10 Updating Search

We need to reimagine the role of search engines and their sources of data.

By Shashi Seth

12 Online Video

New tools are helping video become an ever-greater part of the Web.

By Michal Tsur

TO MARKET

23-30

Technology Commercialized

3-D movie camera, OLED lights and TV, see-through MP3 player, practical jet pack, and more.

GRAPHITI

32 Follow the Flow

A detailed graphical analysis shows just how we use, and waste, energy.

By Matt Mahoney

Q&A

34 Paul Otellini

Is the U.S. losing its competitive edge? Intel's boss thinks so.

By David Rotman

PHOTO ESSAY

36 China Cleans Up

China is adding nuclear, hydro-electric, wind, and solar power at an unrivaled pace.

By Peter Fairley

BRIEFING

69-82

Microprocessors

We look at how the challenges and opportunities of mobile computing are transforming the microprocessor.

■ www.technologyreview.com/briefings/processors See an interview with Gordon Moore and explore an interactive timeline of the microprocessor.

REVIEWS

84 Going Out of Print

The new generation of e-book readers will transform the print industry. What will that transformation look like?

By Wade Roush

86 A Less Personal Computer

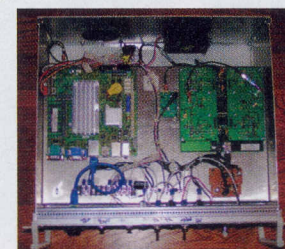

Google's nascent operating system will be fast and safe. But in return, you must give up your personal data.

By Simson L. Garfinkel

88 Terraforming Earth

In the face of climate change, Stewart Brand has some provocative solutions.

By Mark Williams

HACK

90 Build Your Own Cellular Network

Just about anybody can create an inexpensive cellular base station that routes calls all over the world.

By Erica Naone
