4 Sulzer Pumps and Sulzer Chemtech are involved at an early stage in the process design phase of carbon capture and storage (CCS) projects.

16 Sulzer Innotec determined the complex dynamic behavior of the articulated railcar from Stadler Bussnang AG and developed measures for optimization.

4 Carbon capture and storage—Putting a chill on global warming
Sulzer Pumps and Sulzer Chemtech provide technologies to help combat global warming
Sabine Sulzer, Markus Duss

Sulzer Turbo Services

9 Delivering high-quality service on a tight schedule—160 MW Steam turbine repair project
Sulzer Turbo Services successfully repaired a 160 MW steam turbine generator
Hepy Hanipa

Sulzer Chemtech, Celeghin

12 A new approach to an established product—Cost-efficient production of ethanolamines
Sulzer Chemtech and Celeghin optimize the flexibility and costs of ethanolamine production
Peter Fässler, Aureo Celeghin

Sulzer Innotec, Stadler Bussnang AG

16 Experimental modal and operational vibration analysis in practice—Optimized vibration control of diesel-electric power units in rail vehicles
Sulzer Innotec, in close collaboration with Stadler Bussnang AG, successfully reduced the vibration in the drive units of articulated railcars
Rudolf Stürchler
