

Sulzer Technical Review

SULZER

3/2010

A step ahead
Separation of
gas-liquid mixtures

Flue gas purification
Optimization through
flow simulations

Over 25 years
Corrosion protection
under insulation

Process engineering

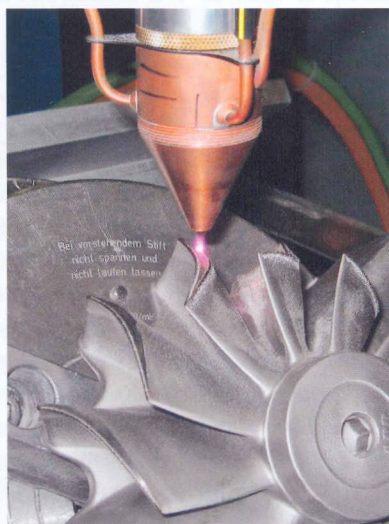

- 4** News
Exhibitions, Events

Process engineering

- 6** The new Schoepentoeter Plus
A step ahead in the bulk separation of gas-liquid mixtures
- 10** Optimization of flue gas purification
Customized equipment through flow simulations
- 13** Sulzer analogy
From bioplastics to cold light

Panorama

- 14** Corrosion protection under insulation
Anti-corrosion solutions—effective corrosion protection for over 25 years
- 18** Catastrophic failure
Design modifications and repair of a 90 MW steam turbine
- 21** Sulzer innovation
Innovation at Sulzer also profits from corporate venturing
- 22** Laser metal forming with 5 axes simultaneously
High-power lasers in material processing
- 25** Sulzer world
Welcome to Sulzer Metco in Shanghai
- 26** Interview
Mick Wigglesworth, Sulzer Pumps Russia
- 27** Imprint
