

Sulzer Pumps

4 Electricity—the Invisible Force that Powers the World

All Sulzer Divisions contribute to efficient and environment-friendly power generation

Red Paley

Sulzer Pumps

8 Modern Multi-Stage Boiler Feed Pumps— Following the Power Demand

Sulzer boiler feed pumps allow quick load changes in thermal power plants

Miguel-Angel Rivas

Sulzer Metco

11 Thermal-Spray Coating Technologies for Power Generation Applications— Surfaces That Make a Difference

Coating solutions by Sulzer Metco improve the performance of power generation equipment

Montia C. Nestler, Eduard Müller, Dave Hawley,
Hans-Michael Höhle, Dieter Sporer, Mitch Dorfman

14 Power Generation in Thermal Power Plants

Sulzer products contribute essentially to power generation

Sulzer Chemtech

17 The Perfect Mix for Clean Air

Sulzer Chemtech delivers static mixers that support removing nitrogen oxide and other pollutants from the flue gas of power plants

Felix Moser, Sebastian Hirschberg, Werner Koller

Sulzer Turbo Services

20 New Life for an Aged Turbine

Sulzer Turbo Service uses modern processes to overhaul steam turbines

Han Hamer

Sulzer Innotec

23 Sulzer Innotec Abradable Test Facility— Ensuring Tight Seals

Tests by Sulzer Innotec help improving coating systems in turbomachinery

Scott Wilson
