VOLUME 6 NUMBER 5
OCTOBER 2010

FEATURE COMMENTARY

Bioplastics & consumer electronics

Challenges & outcomes for the
global biofuels market

PEER REVIEW

Balancing limiting factors & economic
drivers for sustainable stover removal

Synthesis of fructooligosaccharides from sucrose

Aqueous two-phase system for
recombinant *Taq* pol purification

Mary Ann Liebert, Inc.  publishers

Peer Review

271 REVIEW

Balancing limiting factors & economic drivers for sustainable Midwestern US agricultural residue feedstock supplies

Wally W. Wilhelm, J. Richard Hess, Douglas L. Karlen, Jane M. F. Johnson, David J. Muth, John M. Baker, Hero T. Gollany, Jeff M. Novak, Diane E. Stott, and Gary E. Varvel

288 METHODS

Synthesis of fructooligosaccharides from sucrose in aqueous & aqueous-organic systems using free inulinase from *Kluyveromyces marxianus* ATCC 16045

Fernanda V. A. Risso, Marcio A. Mazutti, Helen Treichel, Fátima Costa, Francisco Mauger, Maria Isabel Rodrigues

295 METHODS

An alternate method for purification of recombinant *Taq* DNA polymerase using an aqueous two-phase system

Krishna Mohan, Padmanabha Das, Sampali Banerjee, and Sriram Padmanabhan
