

Dairy Science & Technology

Special Issue: Selection of papers from the 4th International Dairy Federation
Dairy Science and Technology Week, 21-25th April 2009, Rennes, France

Formerly **Le Lait**

Contents

• Preface J.-F. BOUDIER, S. LORTAL	355
• World wide traditional cheeses: Banned for business? G. LICITRA	357
• Is microbial diversity an asset for inhibiting <i>Listeria monocytogenes</i> in raw milk cheeses? É. RETUREAU, C. CALLON, R. DIDIENNE, M.-C. MONTEL	375
• Transcriptome profiling of lactococcal mixed culture activity in milk by fluorescent RNA arbitrarily primed-PCR F. DACHET, D. ST-GELAIS, D. ROY, G. LAPOINTE	399
• RP-HPLC analysis of furosine and acid-soluble β -lactoglobulin to assess the heat load of extended shelf life milk samples in Austria H.K. MAYER, B. RABA, J. MEIER, A. SCHMID	413
• Erratum of "RP-HPLC analysis of furosine and acid-soluble β -lactoglobulin to assess the heat load of extended shelf life milk samples in Austria" H.K. MAYER, B. RABA, J. MEIER, A. SCHMID	429
• Influence of milk fatty acid composition and process parameters on the quality of ice cream K. SMET, J. DE BLOCK, P. VAN DER MEEREN, K. RAES, K. DEWETTINCK, K. COUDIJZER	431

Contents continued on cover page 3

Contents (continued)

• Effect of cream pasteurization, microfiltration and enzymatic proteolysis on in vitro cholesterol-lowering activity of buttermilk solids V. CONWAY, S.F. GAUTHIER, Y. POULIOT	449
• Microbiota of Karakačanski skakutanac, an artisanal fresh sheep cheese studied by culture-independent PCR-ARDRA and PCR-DGGE T. POGAČIĆ, D. ŠAMARŽIJA, V. CORICH, M. D'ANDREA, D.-M. KAGKLI, A. GIACOMINI, A. ČANŽEK MAJHENIČ, I. ROGELJ	461
• Fermented milks from <i>Enterococcus faecalis</i> TH563 and <i>Lactobacillus delbrueckii</i> subsp. <i>bulgaricus</i> LA2 manifest different degrees of ACE-inhibitory and immunomodulatory activities D. REGAZZO, L. DA DALT, A. LOMBARDI, C. ANDRIGHETTO, A. NEGRO, G. GABAI	469
