Suppliers Guide	60

Coverstory

A Bio-Cover for the Airbag	12
----------------------------	----

Automotive

Development of Biocomposites for Automotive Engineering	15
Automotive Bioplastics Design Challenge	16
Ecological Plastic for Toyota's Sai	18
Welcome to the Darker Side of Green	19
Biodegradable PLA/PC Copolymers for Automotive Applications	20

Materials

BiopolymerComposites based on Lignin and Cellulose	22
Bioplastics in Durable Goods	23
Vegetable Oil Based Plastics Produced Loss-Free	24
Assessment of Life Cycle Studies on Hemp Fibre Composites	26

01 | 2011 Jan/Feb

Foam

Particle Foams from Thermoplastic Starch – Waiting for Technology?	28
A Comparative LCA of Building Insulation Products	30
Biodegradable Foams Containing Recycled Cellulose	34
Biodegradable PLA/PBAT Foams	36
A Foam Veteran's View on Biopolymer Foam	39
Industrial Trials of E-PLA Foams	40
Look out for pines	42

From Science & Research

Biomaterials Based on Chitin and Chitosan	48
PLA Composites with Field Crop Residues	52
