CONTENTS

Nov/Dec 2011

- 34** **Matters of Taste**
Compounds we perceive as sweet or bitter in the mouth trigger similar receptors and signaling pathways elsewhere in the body, helping to regulate digestion, respiration, and other systems.
BY THOMAS E. FINGER
AND SUE C. KINNAMON

- 40** **Sensing Fat**
Are genes that alter the perception of fat making us fat?
BY BEVERLY J. TEPPER
AND KATHLEEN L. KELLER
- 47** **2011 Life Sciences Salary Survey**
US salaries are starting to recover after last year's survey recorded the first-ever drop.
BY JEF AKST AND EDYTA ZIELINSKA

DEPARTMENTS

14 Editorial

A Truly Happy Return

After a roller coaster of an October, *The Scientist* resumes publication under new ownership.

BY MARY BETH ABERLIN

18 Notebook

Punch Drunk; Barcode High; Eye of Newt; Cetacean Cures

28 Critics at Large

From Test Tube to Hypodermic Needle

A prescription for educating the public on the value of using animals in medical research

BY JAMES V. PARKER
AND P. MICHAEL CONN

Avoiding Animal Testing

Advances in cell-culture technologies are paving the way to the complete elimination of animals from the laboratory.

BY ANDREW ROWAN

32 Modus Operandi

Flow Cytometry for the Masses

Tagging antibodies with rare earth metals turns a veteran technique into a high-throughput powerhouse.

BY RICHARD P. GRANT

52 The Literature

Honeybee flight; *Pseudomonas* immune invasion; translational suppression by fragile X mental retardation protein

54 Profile

Critical Connections

Through a series of sustained collaborations, Joshua Sanes has deciphered the molecular synergy that guides synapse formation.

BY KAREN HOPKIN

57 Scientist to Watch

Frank Bradke

BY JEF AKST

58 Lab Tools

Brainspotting

New, minimally invasive techniques for seeing deep inside living brains

BY AMBER DANCE

61 Lab Tools

Prime Time for Digital PCR

A rundown of tools on the market and in development

BY KELLY RAE CHI

65 Careers

Going Governmental

Federal agencies offer interesting opportunities for researchers looking to do more than bench work.

BY RACHEL NUWER

74 Reading Frames

Science and Stanzas

A poet finds artistic inspiration in her work as a scientist and new perceptions in the lines and linkages of her art.

BY KATHERINE LARSON

76 Foundations

The Hyena Den, discovered 1821

BY JEF AKST

IN EVERY ISSUE
