UNCHAINING A CHAMPION 10

Biotechnology in North Rhine-Westphalia already has a colorful history and a number of achievements. But the success story is only just beginning.

By Joachim Pietzsch

OPINION: GOVERNMENTAL VISION 16

Biotechnology is the engine that will make North Rhine-Westphalia Germany's most innovative state.

By Minister President Jürgen Rüttgers

PROFILE: ANDREAS PINKWART 18

A liberal economist with a keen interest in biotechnology, Germany's sole Minister for Innovation has deep pockets and ambitious goals for his state.

By Ludger Wess

OPINION: TAP THE FULL POTENTIAL 20

Politicians need to further strengthen the research base in North Rhine-Westphalia.

By Christoph M. Schmidt

PROFILE: DETLEV RIESNER 22

From roots in academic research, Riesner has emerged as an advisor and business angel with an enormous impact on NRW's biotech scene.

INDUSTRY

PRIDE AND PIONEERS 32

NRW's behemoth chemical companies generate about one-third of the German chemical industry's global sales. For biotechnology, this dominance can be both a blessing and a curse.

By Ludger Wess

OPINION: SOLUTIONS FOR MEGATRENDS 36

Legislation should be forward-looking for all fields of biotechnology.

By Wolfgang Plischke

PROFILE: THOMAS VON RÜDEN 38

With single-minded determination, he applied his dual interests to optimize the business of directed evolution (Direvo).
