Welding Journal (ISSN 0043-2296) is published monthly by the American Welding Society for \$120.00 per year in the United States and possessions, \$160 per year in foreign countries; \$7.50 per single issue for domestic AWS members and \$10.00 per single issue for nonmembers and \$14.00 single issue for international. American Welding Society is located at 550 NW LeJeune Rd., Miami, FL 33126-5671; telephone (305) 443-9353. Periodicals postage paid in Miami, Fla., and additional mailing offices. **POSTMASTER:** Send address changes to *Welding Journal*, 550 NW LeJeune Rd., Miami, FL 33126-5671. **Canada Post:** Publications Mail Agreement #40612608 Canada Returns to be sent to Bleuchip International, P.O. Box 25542, London, ON N6C 6B2

Readers of *Welding Journal* may make copies of articles for personal, archival, educational or research purposes, and which are not for sale or resale. Permission is granted to quote from articles, provided customary acknowledgment of authors and sources is made. Starred (*) items excluded from copyright.

Features

- 31** **Welding's Future in South Africa**
A government economic plan has initiated unprecedented spending on infrastructure, which has been a stimulus to welding
M. Du Toit
- 36** **Through Steel and Glass, Artist Seems to Defy Gravity**
An entrepreneur used his skills as a metal fabricator and designer to create unique welded sculptures
J. Swartz
- 42** **How to Assure Quality in Outsourced Welded Products**
A global welding supplier tells what must be done to ensure product quality on a consistent basis
W. C. LaPlante
- 48** **Ceramic Backing Enhances One-Sided Welding**
The combination of one-sided welding and gas-shielded flux cored arc welding helped improve production efficiency on a large bridge structure
S. Tongzhan et al.
- 52** **FABTECH**
Special events, conferences, technical sessions, and seminars are detailed in this overview of the 2011 FABTECH show in Chicago

Welding Research Supplement

- 183-s** **Laser Enhanced Metal Transfer — Part 1: System and Observations**
An auxiliary detaching force from a low-power laser improved metal transfer
Y. Huang and Y. M. Zhang
- 191-s** **Application of Electro-Spark Deposition as a Joining Technology**
The electro-spark process was used to join dissimilar materials and difficult-to-weld metals
J. Gould
- 198-s** **Effects of Laser Parameters on Porosity Formation: Investigating Millimeter Scale Continuous Wave Nd:YAG Laser Welds**
Factors that lead to instability in the keyhole process were investigated
J. T. Norris et al.

On the cover: McCormick Place Entrance

McCormick Place offers the most exhibit space of any convention center in North America. With 2.2 million square feet of exhibit space, 114 meeting rooms, four theaters, and assembly seating for 10,000 people, McCormick Place has the capacity to suit the needs of both large conventions and trade shows and smaller meetings and exhibits.
