Welding Journal (ISSN 0043-2296) is published monthly by the American Welding Society for \$120.00 per year in the United States and possessions, \$160 per year in foreign countries; \$7.50 per single issue for domestic AWS members and \$10.00 per single issue for nonmembers and \$14.00 single issue for international. American Welding Society is located at 550 NW LeJeune Rd., Miami, FL 33126-5671; telephone (305) 443-9353. Periodicals postage paid in Miami, Fla., and additional mailing offices. **POSTMASTER:** Send address changes to *Welding Journal*, 550 NW LeJeune Rd., Miami, FL 33126-5671. **Canada Post:** Publications Mail Agreement #40612608 Canada Returns to be sent to Bleuchip International, P.O. Box 25542, London, ON N6C 6B2

Readers of *Welding Journal* may make copies of articles for personal, archival, educational or research purposes, and which are not for sale or resale. Permission is granted to quote from articles, provided customary acknowledgment of authors and sources is made. Starred (*) items excluded from copyright.

Features

- 28** Electrode Dressing Makes a Better Spot Weld
Electrode preparation is essential to get the best spot welds
H. Kusano
- 34** HVAC Shops Capitalize on Welding Skills
Welding capabilities have helped heating, ventilation, and air-conditioning shops to keep going during tough economic times
T. Bond
- 38** Welding Challenges in Today's Automotive Industry
Preventive maintenance and equipment standardization are keys in maintaining arc welding efficiency while "doing more with less"
R. Ryan and D. Bellamy
- 43** Stud Welding Improves Kitchen Ventilation Systems
A switch to automation paid dividends for a manufacturer of commercial kitchen ventilation systems
- 46** Collision Welding of Sheet Metals: A Practical and 'Green' Technology
Two solid-state welding processes were examined for welding dissimilar metals
Y. Zhang et al.
- 52** Remote Laser Beam Welding: A Cost-Effective, High-Productivity Tool for Manufacturing
A cost model was developed to compare laser beam welding with resistance spot welding
R. Mueller and M. Forrest

The American Welder

- 105** Welding the Enchanted Highway
Welded sculptures turn tiny town into a destination
M. R. Johnsen
- 109** Backfires and Flashbacks in Oxyfuel Gas Welding and Cutting
The revised terminology of flashback and backfire is explained
A. F. Manz

Welding Research Supplement

- 85-s** Gas Metal Arc Weld Pool Surface Imaging: Modeling and Processing
A reflection-based observation system helps in the understanding and control of the welding process
X. Ma and Y. Zhang
- 95-s** Correlation of Microstructures and Process Variables in FSW HSLA-65 Steel
The correlation of process variables with high-strength weld microstructure was studied
L. Y. Wei and T. W. Nelson
- 102-s** Effect of Friction Welding Parameters on Mechanical and Microstructural Properties of Dissimilar AISI 1010-ASTM B22 Joints
The optimum parameters for rotary friction welding were obtained through experimentation
A. Kurt, I. Uygun, and U. Paylasan

On the cover: In the automotive industry, maintaining the proper equipment with good preventive maintenance practices as well as standardizing inventory can streamline production. (Photo courtesy of Motoman Robotics.)
