SPECIAL REPORT: SUSTAINABILITY

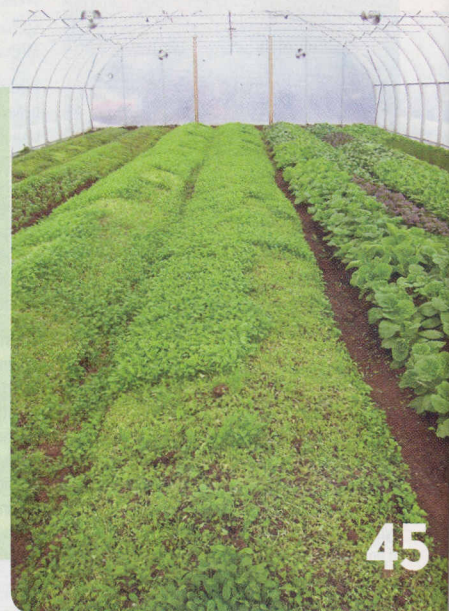

37 LIVING ON A NEW EARTH

38 Boundaries for a Healthy Planet *By Jonathan Foley*
Scientists have begun to quantify red-alert levels for environmental problems.

42 Solutions to Environmental Threats
Experts spell out the actions that should be most effective.

45 Breaking the Growth Habit *By Bill McKibben*
An exclusive excerpt from a provocative book says economic growth must stop.

50 Bill McKibben, Challenged *By Mark Fischetti*
Is zero growth really necessary? McKibben answers questions about his stance.

45

ASTRONOMY

20 Eight Wonders of the Solar System
By Edward Bell,
illustrations by Ron Miller
Tour some of the most breathtaking views that await intrepid explorers of our solar system.

NEUROSCIENCE

28 Faulty Circuits
By Thomas R. Insel
Brain studies are revealing the malfunctioning connections underlying mental illness.

MEDICINE

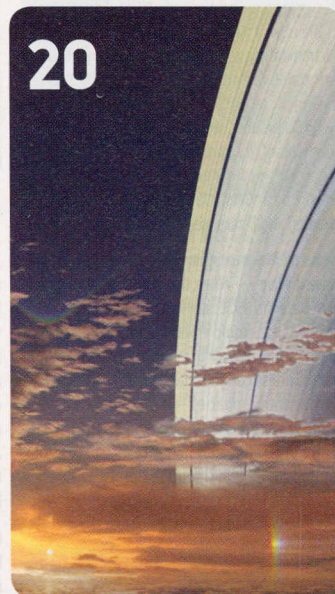

52 Regaining Balance with Bionic Ears
By Charles C. Della Santina
Electronic implants in the inner ear may one day help patients suffering from disabling unsteadiness.

TECHNOLOGY

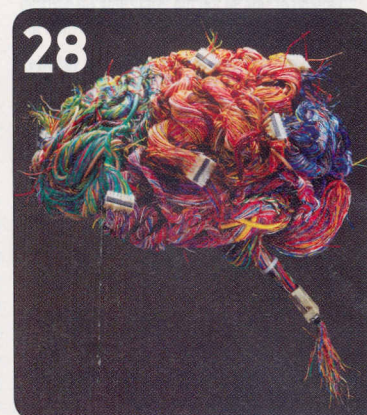

56 The Rise of Instant Wireless Networks
By Michelle Effros, Andrea Goldsmith and Muriel Médard
Wireless networks that form on the fly bring communications to the most foreboding environments.

BIOLOGY

62 The Hidden Life of Truffles
By James M. Trappe and Andrew W. Claridge
Not just for gourmands, truffles play essential roles in the health of ecosystems.

ON THE COVER

How can we sustain life on a planet undergoing many profound changes simultaneously? Find an array of proposals in this issue. Photoillustration by Aaron Goodman.

4 From the Editor

5 Letters

7 50, 100 & 150 Years Ago

8 News Scan

TECHNOLOGY

- Google's muscle: worrisome or wondrous?
- NASA loses a little mobile Spirit.

RESEARCH & DISCOVERY

- Math problems solved by a Web community.
- When humans almost went extinct.
- New evidence that mammals floated to Madagascar.

ENERGY & ENVIRONMENT

- Engine-ready diesel fuel from bacteria.
- High sea levels even during an ice age.

MEDICINE & HEALTH

- Should younger, healthy people take statins?
- Sound can affect what you smell.

16 Perspectives

By the Editors

Federal agencies need more power to ban chemicals.

17 Sustainable Developments

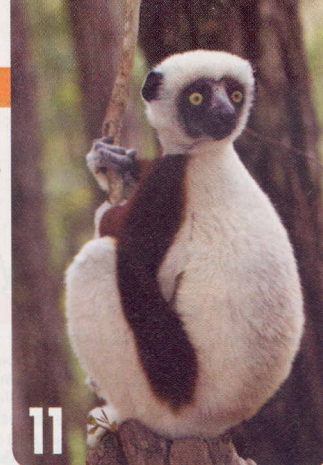

By Jeffrey D. Sachs

Combined with community involvement, information and communications technologies can save lives.

18 Skeptic

By Michael Shermer

How the brain produces the sense of someone present when no one is there.

19 Critical Mass

By Lawrence M. Krauss

Sometimes the pursuit of a great discovery is its own reward.

68 Recommended

Imperiled species. Sleeping sickness. Human ancestors.

C3 Anti Gravity

By Steve Mirsky

Cheetos, clones and chimp cinematographers.
