## CONTENTS

INTERPRETIVE SUMMARIES .....vi

NEWS AND ANNOUNCEMENTS .....xiii

### LETTER TO THE EDITOR:

*Letter to the editor:* About the characterization of the genetic variants F<sup>2</sup> and G<sup>1</sup> of cow's milk  
κ-casein

M. Malacarne, A. Summer, and P. Mariani..... 1787

### DAIRY FOODS:

Nonsuppressed ion chromatographic determination of total calcium in milk

S. Rahimi-Yazdi, M. A. Ferrer, and M. Corredig ..... 1788

Sensometric calibration of sensory characteristics of commercially available milk products  
with instrumental data

H. Ochi, M. Sumi, I. Nakata, H. Saito, M. Uozumi, and K. Iwatsuki..... 1794

Influence of microfiltration and adjunct culture on quality of Domiati cheese

S. Awad, N. Ahmed, and M. El Soda ..... 1807

Improved growth of bifidobacteria by cocultivation with *Lactococcus lactis* subspecies *lactis*

S. Yonezawa, J. Z. Xiao, T. Odamaki, T. Ishida, K. Miyaji, A. Yamada,  
T. Yaeshima, and K. Iwatsuki..... 1815

Comparison of composition and sensory properties of 80% whey protein and milk serum protein  
concentrates

J. Evans, J. Zulewska, M. Newbold, M. A. Drake, and D. M. Barbano ..... 1824

Insoluble calcium content and rheological properties of Colby cheese during ripening

M.-R. Lee, M. E. Johnson, S. Govindasamy-Lucey, J. J. Jaeggi, and J. A. Lucey ..... 1844

Direct application of supercritical carbon dioxide for the reduction of *Cronobacter* spp.  
(*Enterobacter sakazakii*) in end products of dehydrated powdered infant formula

S. A. Kim, O. Y. Kim, and M. S. Rhee ..... 1854

Modification of the analysis of parathyroid hormone-related protein in milk and concentrations  
of this protein in commercial milk and milk products in Japan

K. Onda, M. Yamaguchi, M. Ohashi, R. Sato, H. Ochiai, T. Iriki, and Y. Wada ..... 1861

Chemical and biochemical study of industrially produced San Simón da Costa smoked semi-hard  
cow's milk cheeses: Effects of storage under vacuum and different modified atmospheres

J. I. Garabal, P. Rodríguez-Alonso, D. Franco, and J. A. Centeno ..... 1868

Comparison between red-green-blue imaging and visible-near infrared reflectance as potential  
process analytical tools for monitoring syneresis

M. J. Mateo, D. J. O'Callaghan, and C. P. O'Donnell ..... 1882

Roles of charge interactions on astringency of whey proteins at low pH

B. Vardhanabhuti, M. A. Kelly, P. J. Luck, M. A. Drake, and E. A. Foegeding..... 1890

Role of protein concentration and protein-saliva interactions in the astringency of whey proteins  
at low pH

M. Kelly, B. Vardhanabhuti, P. Luck, M. A. Drake, J. Osborne, and E. A. Foegeding ... 1900

- Physical properties of acid milk gels prepared at 37°C up to gelation but at different incubation temperatures for the remainder of fermentation  
Y. Peng, D. S. Horne, and J. A. Lucey..... 1910
- Survey of the fatty acid composition of retail milk differing in label claims based on production management practices  
A. M. O'Donnell, K. P. Spatny, J. L. Vicini, and D. E. Bauman ..... 1918
- Identification of the bacterial biodiversity in koumiss by denaturing gradient gel electrophoresis and species-specific polymerase chain reaction  
Y. Hao, L. Zhao, H. Zhang, Z. Zhai, Y. Huang, X. Liu, and L. Zhang ..... 1926

## PHYSIOLOGY AND MANAGEMENT:

- In vitro and in vivo analysis of fatty acid effects on metabolism of 17 $\beta$ -estradiol and progesterone in dairy cows  
C. A. Piccinato, R. Sartori, S. Sangsritavong, A. H. Souza, R. R. Grummer, D. Luchini, and M. C. Wiltbank ..... 1934
- Effects of treatment of anestrous dairy cows with gonadotropin-releasing hormone, prostaglandin, and progesterone  
S. McDougall ..... 1944
- Efficacy of enrofloxacin in the treatment of naturally occurring acute clinical *Escherichia coli* mastitis  
L. Suojala, H. Simojoki, K. Mustonen, L. Kaartinen, and S. Pyörälä ..... 1960
- Sampling strategies for monitoring lameness in dairy cattle  
D. C. J. Main, Z. E. Barker, K. A. Leach, N. J. Bell, H. R. Whay, and W. J. Browne... 1970
- Effects of parity on uterine involution and resumption of ovarian activities in postpartum Chinese Holstein dairy cows  
J. Zhang, L. X. Deng, H. L. Zhang, G. H. Hua, L. Han, Y. Zhu, X. J. Meng, and L. G. Yang ..... 1979
- Relationship between feeding strategy, lying behavior patterns, and incidence of intramammary infection in dairy cows  
T. J. DeVries, S. Dufour, and D. T. Scholl ..... 1987
- Limits to prediction of energy balance from milk composition measures at individual cow level  
P. Løvendahl, C. Ridder, and N. C. Friggens..... 1998
- Automated methods for detecting lameness and measuring analgesia in dairy cattle  
N. Chapinal, A. M. de Passillé, J. Rushen, and S. Wagner ..... 2007
- Heifers infected with coagulase-negative staphylococci in early lactation have fewer cases of clinical mastitis and higher milk production in their first lactation than noninfected heifers  
S. Piepers, G. Opsomer, H. W. Barkema, A. de Kruif, and S. De Vliegher ..... 2014
- Vitamin D<sub>3</sub> synthesis in the entire skin surface of dairy cows despite hair coverage  
L. Hymøller and S. K. Jensen ..... 2025
- Short communication:* Effect of sampling time relative to the first daily feeding on interpretation of serum fatty acid and  $\beta$ -hydroxybutyrate concentrations in dairy cattle  
G. F. Quiroz-Rocha, S. J. LeBlanc, T. F. Duffield, B. Jefferson, D. Wood, K. E. Leslie, and R. M. Jacobs ..... 2030

## NUTRITION, FEEDING, AND CALVES:

- Interactions of energy and predicted metabolizable protein in determining nitrogen efficiency in the lactating dairy cow  
A. G. Rius, M. L. McGilliard, C. A. Umberger, and M. D. Hanigan..... 2034
- Effects of feeding triticale dried distillers grains plus solubles as a nitrogen source on productivity of lactating dairy cows  
M. Oba, G. B. Penner, T. D. Whyte, and K. Wierenga..... 2044

|                                                                                                                                                                                                                                                                                         |      |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| Effects of hunger level and tube diameter on the feeding behavior of teat-fed dairy calves<br>M. S. Herskin, F. Skjøth, and M. B. Jensen .....                                                                                                                                          | 2053 |
| Transfer efficiency of melamine from feed to milk in lactating dairy cows fed with different doses of melamine<br>J. S. Shen, J. Q. Wang, H. Y. Wei, D. P. Bu, P. Sun, and L. Y. Zhou .....                                                                                             | 2060 |
| Anionic salts in the prepartum diet and addition of sodium bicarbonate to colostrum replacer, and their effects on immunoglobulin G absorption in the neonate<br>K. M. Morrill, S. P. Marston, N. L. Whitehouse, M. E. Van Amburgh, C. G. Schwab, D. M. Haines, and P. S. Erickson..... | 2067 |
| Effects of partial replacement of concentrate with feed blocks on nutrient utilization, microbial N flow, and milk yield and composition in goats<br>E. Molina-Alcaide, E. Y. Morales-García, A. I. Martín-García, H. Ben Salem, A. Nefzaoui, and M. R. Sanz-Sampelayo .....            | 2076 |
| Effect of diet on fecal and urinary estrogenic activity<br>H. A. Tucker, K. F. Knowlton, M. T. Meyer, W. O. Khunjar, and N. G. Love .....                                                                                                                                               | 2088 |
| Response of lactating dairy cows to high protein distillers grains or 3 other protein supplements<br>K. A. Christen, D. J. Schingoethe, K. F. Kalscheur, A. R. Hippen, K. K. Karges, and M. L. Gibson .....                                                                             | 2095 |
| Effect of rumen-protected methionine on feed intake, milk production, true milk protein concentration, and true milk protein yield, and the factors that influence these effects:<br>A meta-analysis<br>R. A. Patton.....                                                               | 2105 |
| Carryover effects of potassium supplementation on calcium homeostasis in dairy cows at parturition<br>M. S. Bhanugopan, W. J. Fulkerson, D. R. Fraser, M. Hyde, and D. M. McNeill.....                                                                                                  | 2119 |
| Effects of supplementary folic acid and vitamin B <sub>12</sub> on hepatic metabolism of dairy cows according to methionine supply<br>A. Preynat, H. Lapiere, M. C. Thivierge, M. F. Palin, N. Cardinault, J. J. Matte, A. Desrochers, and C. L. Girard.....                            | 2130 |
| Brown midrib corn silage and Tifton 85 bermudagrass in rations for early-lactation cows<br>J. J. Castro, J. K. Bernard, N. A. Mullis, and R. B. Eggleston.....                                                                                                                          | 2143 |
| Effects of feeding supplemental organic iron to late gestation and early lactation dairy cows<br>W. P. Weiss, J. M. Pinos-Rodríguez, and M. T. Socha .....                                                                                                                              | 2153 |

## GENETICS AND BREEDING:

|                                                                                                                                                                                                                                                 |      |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| <i>Hot topic:</i> Gene duplication at the $\alpha$ -lactalbumin locus: Finding the evidence in water buffalo ( <i>Bubalus bubalus</i> L.)<br>R. Rullo, A. Di Luccia, L. Chianese, and E. Pieragostini .....                                     | 2161 |
| Genetic and environmental parameters for milk production, udder health, and fertility traits in Mexican Holstein cows<br>H. H. Montaldo, H. Castillo-Juárez, M. Valencia-Posadas, E. G. Cienfuegos-Rivas, and F. J. Ruiz-López .....            | 2168 |
| A comparison between Holstein-Friesian and Jersey dairy cows and their F <sub>1</sub> hybrid on milk fatty acid composition under grazing conditions<br>R. A. Palladino, F. Buckley, R. Prendiville, J. J. Murphy, J. Callan, and D. A. Kenny.. | 2176 |
| Genetic analysis of reproductive disorders and their relationship to fertility and milk yield in Austrian Fleckvieh dual-purpose cows<br>A. Koeck, C. Egger-Danner, C. Fuerst, W. Obritzhauser, and B. Fuerst-Waltl .....                       | 2185 |
| Genetic parameters for buffalo milk yield and milk quality traits using Bayesian inference<br>R. R. Aspilcueta-Borquis, F. R. Araujo Neto, F. Baldi, A. B. Bignardi, L. G. Albuquerque, and H. Tonhati.....                                     | 2195 |

|                                                                                                                                                                                                                                                        |      |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| Genetic markers for lactation persistency in primiparous Australian dairy cows<br>J. E. Pryce, M. Haile-Mariam, K. Verbyla, P. J. Bowman, M. E. Goddard,<br>and B. J. Hayes .....                                                                      | 2202 |
| Genetic relationships between body condition score and reproduction traits in Canadian Holstein<br>and Ayrshire first-parity cows<br>C. Bastin, S. Loker, N. Gengler, A. Sewalem, and F. Miglior .....                                                 | 2215 |
| Prediction of unobserved single nucleotide polymorphism genotypes of Jersey cattle using reference<br>panels and population-based imputation algorithms<br>K. A. Weigel, C. P. Van Tassell, J. R. O'Connell, P. M. VanRaden,<br>and G. R. Wiggans..... | 2229 |
| <i>Short communication:</i> Genetic and nongenetic factors influencing <i>Ostertagia ostertagi</i> antibodies<br>in UK Holstein-Friesian cattle<br>C. Hayhurst, A. Bradley, A. B. Forbes, K. Hunter, and M. D. Royal.....                              | 2239 |
| <i>Short communication:</i> Validation of in vitro fertility genes in a Holstein bull population<br>H. Khatib, R. L. Monson, W. Huang, R. Khatib, V. Schutzkus, H. Khateeb,<br>and J. J. Parrish.....                                                  | 2244 |

## OUR INDUSTRY TODAY:

|                                                                                                                                                                                                                                                           |      |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| Dynamics of culling risk with disposal codes reported by Dairy Herd Improvement dairy herds<br>P. J. Pinedo, A. De Vries, and D. W. Webb.....                                                                                                             | 2250 |
| Determining the optimum replacement policy for Holstein dairy herds in Iran<br>A. S. Kalantari, H. Mehrabani-Yeganeh, M. Moradi, A. H. Sanders, and A. De Vries ...                                                                                       | 2262 |
| Effect of a mixture of steam-flaked corn and soybeans on health, growth, and selected blood<br>metabolism of Holstein calves<br>Y. Q. Zhang, D. Ch. He, and Q. X. Meng.....                                                                               | 2271 |
| Capturing urine while maintaining pasture intake, milk production, and animal welfare of dairy<br>cows in early and late lactation<br>C. E. F. Clark, K. L. M. McLeod, C. B. Glassey, P. Gregorini, D. A. Costall,<br>K. Betteridge, and J. G. Jago ..... | 2280 |
| Selection and management of DNA markers for use in genomic evaluation<br>G. R. Wiggans, P. M. VanRaden, L. R. Bacheller, M. E. Tooker, J. L. Hutchison,<br>T. A. Cooper, and T. S. Sonstegard .....                                                       | 2287 |
| Birth traits of pure Holstein calves versus Montbeliarde-sired crossbred calves<br>B. J. Heins, L. B. Hansen, A. R. Hazel, A. J. Seykora, D. G. Johnson,<br>and J. G. Linn .....                                                                          | 2293 |
| 2010 Midwest Abstracts .....                                                                                                                                                                                                                              | 2300 |
