CONTENTS

INTERPRETIVE SUMMARIES	vi
NEWS AND ANNOUNCEMENTS	xi
DAIRY FOODS:	
Effect of nonfat dry milk and major whey components on interleukin-6 and interleukin-8 production in human intestinal epithelial-like Caco-2 cells Z. Ustunol and C. Wong	2311
The phenotypic and genotypic characterization of <i>Enterobacter sakazakii</i> strains from infant formula milk Y. Ye, Q. Wu, X. Xu, X. Yang, X. Dong, and J. Zhang.....	2315
Microscopic observation of multispecies biofilm of various structures on whey concentration membranes A. N. Hassan, S. Anand, and M. Avadhanula.....	2321
Nucleotides and nucleosides in ovine and caprine milk during lactation S. Plakantara, A.-M. Michaelidou, A. Polychroniadou, G. Menexes, and E. Alichanidis	2330
The effect of ethanol and heat on the functional hydrophobicity of casein micelles R. Trejo and F. Harte	2338
Apoptosis of stomach cancer cell SGC-7901 and regulation of Akt signaling way induced by bovine lactoferrin X. X. Xu, H. R. Jiang, H. B. Li, T. N. Zhang, Q. Zhou, and N. Liu	2344
Short communication: Influence of pasteurization on the active compounds in medicinal plants to be used in dairy products A. K. Jäger, L. Saaby, D. S. Kudsk, K. C. Witt, and P. Mølgaard	2351
Short communication: Presence of galactose and glucose promotes browning of sweet whey powder A. Dattatreya, W. Lee, and S. A. Rankin	2354
Short communication: Identification and technological characterization of yeast strains isolated from samples of water buffalo Mozzarella cheese M. Aponte, O. Pepe, and G. Blaiotta	2358
Short communication: Antiproliferative effect of wild <i>Lactobacillus</i> strains isolated from fermented foods on HT-29 cells Y. F. Tuo, L. W. Zhang, H. X. Yi, Y. C. Zhang, W. Q. Zhang, X. Han, M. Du, Y. H. Jiao, and S. M. Wang.....	2362
Technical note: Rapid method for determination of amino acids in milk R. Marino, M. Iammarino, A. Santillo, M. Muscarella, M. Caroprese, and M. Albenzio	2367
PHYSIOLOGY AND MANAGEMENT:	
Lack of association between the occurrence of Crohn's disease and occupational exposure to dairy and beef cattle herds infected with <i>Mycobacterium avium</i> subspecies <i>paratuberculosis</i> D. A. Qual, J. B. Kaneene, T. J. Varty, R. Miller, and C. O. Thoen.....	2371

Prediction of ammonia emission from dairy cattle manure based on milk urea nitrogen: Relation of milk urea nitrogen to ammonia emissions S. A. Burgos, N. M. Embertson, Y. Zhao, F. M. Mitloehner, E. J. DePeters, and J. G. Fadel	2377
Effects of encapsulated niacin on evaporative heat loss and body temperature in moderately heat-stressed lactating Holstein cows R. B. Zimbelman, L. H. Baumgard, and R. J. Collier	2387
Relationship between cortisol response to stress and behavior, immune profile, and production performance of dairy ewes M. Caroprese, M. Albenzio, A. Marzano, L. Schena, G. Annicchiarico, and A. Sevi	2395
Effects of the peroxisome proliferator-activated receptor- α agonists clofibrate and fish oil on hepatic fatty acid metabolism in weaned dairy calves N. B. Litherland, M. Bionaz, R. L. Wallace, J. J. Loor, and J. K. Drackley	2404
Assessing economic consequences of foot disorders in dairy cattle using a dynamic stochastic simulation model M. R. N. Bruijnis, H. Hogeveen, and E. N. Stassen	2419
Characterization of mammary stromal remodeling during the dry period L. D. De Vries, H. Dover, T. Casey, M. J. VandeHaar, and K. Plaut	2433
Border disease virus seroprevalence correlates to antibodies in bulk-tank milk and reproductive performance of dairy sheep flocks A. L. García-Pérez, F. Ruiz-Fons, J. F. Barandika, G. Aduriz, R. A. Juste, and A. Hurtado	2444
The effect of meloxicam on behavior and pain sensitivity of dairy calves following cautery dehorning with a local anesthetic A. Heinrich, T. F. Duffield, K. D. Lissemore, and S. T. Millman	2450
Factors associated with concentrations of select cytokine and acute phase proteins in dairy cows with naturally occurring clinical mastitis J. R. Wenz, L. K. Fox, F. J. Muller, M. Rinaldi, R. Zeng, and D. D. Bannerman	2458
Effects of continuous milking during the dry period or once daily milking in the first 4 weeks of lactation on metabolism and productivity of dairy cows G. Schlamberger, S. Wiedemann, E. Viturro, H. H. D. Meyer, and M. Kaske	2471
Assessment of the productivity effects associated with epizootic hemorrhagic disease in dairy herds M. Kedmi, M. Van Straten, E. Ezra, N. Galon, and E. Klement	2486
Sex-sorted semen for dairy heifers: Effects on reproductive and lactational performances R. C. Chebel, F. S. Guagnini, J. E. P. Santos, J. P. Fetrow, and J. R. Lima	2496
Lipomobilization in periparturient dairy cows influences the composition of plasma nonesterified fatty acids and leukocyte phospholipid fatty acids G. A. Contreras, N. J. O'Boyle, T. H. Herdt, and L. M. Sordillo	2508
Assessing pest control using changes in instantaneous rate of population increase: Treated targets and stable fly populations case study D. V. Beresford and J. F. Sutcliffe	2517
Ovsynch versus Ultrasynd: Reproductive efficacy of a dairy cattle synchronization protocol incorporating corpus luteum function J. A. A. McArt, L. S. Caixeta, V. S. Machado, C. L. Guard, K. N. Galvao, O. G. Sá Filho, and R. C. Bicalho	2525
Estrone and 17 β -estradiol concentrations in pasteurized-homogenized milk and commercial dairy products D. A. Pape-Zambito, R. F. Roberts, and R. S. Kensinger	2533
Effect of automatic cluster remover settings on production, udder health, and milking duration J. G. Jago, J. L. Burke, and J. H. Williamson	2541

Host adaptation of bovine <i>Staphylococcus aureus</i> seems associated with bacteriological cure after lactational antimicrobial treatment	
B. H. P. van den Borne, M. Nielen, G. van Schaik, M. B. Melchior, T. J. G. M. Lam, and R. N. Zadoks	2550
Discriminating between true-positive and false-positive clinical mastitis alerts from automatic milking systems	
W. Steeneveld, L. C. van der Gaag, W. Ouweltjes, H. Mollenhorst, and H. Hogeveen....	2559
Short communication: Repeatability of differential goat bulk milk culture and associations with somatic cell count, total bacterial count, and standard plate count	
G. Koop, N. Dik, M. Nielen, and L. J. A. Lipman	2569
Technical note: A rapid method for 5-bromo-2'-deoxyuridine (BrdU) immunostaining in bovine mammary cryosections that retains RNA quality	
R. K. Choudhary, K. M. Daniels, C. M. Evock-Clover, W. Garrett, and A. V. Capuco.....	2574

NUTRITION, FEEDING, AND CALVES:

Flaxseed supplementation improves fatty acid profile of cow milk	
M. Caroprese, A. Marzano, R. Marino, G. Gliatta, A. Muscio, and A. Sevi	2580
Effects of prepartum roughage neutral detergent fiber levels on periparturient dry matter intake, metabolism, and lactation in heat-stressed dairy cows	
J. Kanjanapruthipong, N. Homwong, and N. Buatong.....	2589
Effect of dietary modifications of calcium and magnesium on reducing solubility of phosphorus in feces from lactating dairy cows	
D. A. Herrera, W. G. Harris, V. D. Nair, M. Josan, and C. R. Staples.....	2598
Supplementation with whole cottonseed causes long-term reduction of methane emissions from lactating dairy cows offered a forage and cereal grain diet	
C. Grainger, R. Williams, T. Clarke, A.-D. G. Wright, and R. J. Eckard	2612
The relationship of silage temperature with the microbiological status of the face of corn silage bunkers	
G. Borreani and E. Tabacco.....	2620
Mitigation of enteric methane emissions through improving efficiency of energy utilization and productivity in lactating dairy cows	
T. Yan, C. S. Mayne, F. G. Gordon, M. G. Porter, R. E. Agnew, D. C. Patterson, C. P. Ferris, and D. J. Kilpatrick.....	2630
Long-term effects of ad libitum whole milk prior to weaning and prepubertal protein supplementation on skeletal growth rate and first-lactation milk production	
U. Moallem, D. Werner, H. Lehrer, M. Zachut, L. Livshitz, S. Yakoby, and A. Shamay	2639
Effect of water addition to a total mixed ration on feed temperature, feed intake, sorting behavior, and milk production of dairy cows	
C. A. Felton and T. J. DeVries	2651
<i>Saccharomyces cerevisiae</i> fermentation product in dairy cow diets containing dried distillers grains plus solubles	
A. R. Hippen, D. J. Schingoethe, K. F. Kalscheur, P. L. Linke, D. R. Rennich, M. M. Abdelqader, and I. Yoon.....	2661
Effect of dietary nitrogen content and intravenous urea infusion on ruminal and portal-drained visceral extraction of arterial urea in lactating Holstein cows	
N. B. Kristensen, A. C. Storm, and M. Larsen	2670
Short communication: Fat-soluble vitamin and mineral status of milk replacer-fed dairy calves: Effect of growth rate during the preruminant period	
B. J. Nonnecke, M. R. Foote, B. L. Miller, D. C. Beitz, and R. L. Horst.....	2684

Technical note: A noninvasive urine collection device for female cattle: Modification of the urine cup collection method

G. J. Lascano, G. I. Zanton, A. J. Heinrichs, and W. P. Weiss..... 2691

GENETICS AND BREEDING:

Response to alternative genetic-economic indices for Holsteins across 2 generations

H. D. Norman, J. R. Wright, and R. H. Miller 2695

Testing candidate gene effects on milk production traits in dairy cattle under various parameterizations and modes of inheritance

T. Suchocki, J. Komisarek, and J. Szyda 2703

Random regression analysis of milk yield and milk composition in the first and second lactations of Murciano-Granadina goats

A. Menéndez-Buxadera, A. Molina, F. Arrebola, M. J. Gil, and J. M. Serradilla 2718

Visualization of results from genomic evaluations

J. B. Cole and P. M. VanRaden..... 2727

A comparison between Holstein-Friesian and Jersey dairy cows and their F₁ cross with regard to milk yield, somatic cell score, mastitis, and milking characteristics under grazing conditions

R. Prendiville, K. M. Pierce, and F. Buckley 2741

Genetic analysis of fertility-related diseases and disorders in Norwegian Red cows

B. Heringstad 2751

Predicting energy balance for dairy cows using high-density single nucleotide polymorphism information

K. L. Verbyla, M. P. L. Calus, H. A. Mulder, Y. de Haas, and R. F. Veerkamp 2757

Using eigenvalues as variance priors in the prediction of genomic breeding values by principal component analysis

N. P. P. Macciotta, G. Gaspa, R. Steri, E. L. Nicolazzi, C. Dimauro, C. Pieramati, and A. Cappio-Borlino 2765

Short communication: Characterization of the genome-wide linkage disequilibrium in 2 divergent selection lines of dairy cows

G. Banos and M. P. Coffey 2775

OUR INDUSTRY TODAY:

Recall costs balanced against spoilage control in Dutch custard

A. G. J. Velthuis, M. W. Reij, K. Baritakis, M. Dang, and C. P. A. van Wagenberg 2779

Biofilm in milking equipment on a dairy farm as a potential source of bulk tank milk contamination with *Listeria monocytogenes*

A. A. Latorre, J. S. Van Kessel, J. S. Karns, M. J. Zurakowski, A. K. Pradhan, K. J. Boor, B. M. Jayarao, B. A. Houser, C. S. Daugherty, and Y. H. Schukken..... 2792

Evaluation of protein fractionation and ruminal and intestinal digestibility of corn milling co-products

J. M. Kelzer, P. J. Kononoff, L. O. Tedeschi, T. C. Jenkins, K. Karges, and M. L. Gibson 2803

Dairy Cattle Breeding Simulation Program: A simulation program to teach animal breeding principles and practices

J. F. Medrano, A. Ahmadi, and J. Casellas 2816
