|                                                                                                                                                                                                                                                                                     |      |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| INTERPRETIVE SUMMARIES .....                                                                                                                                                                                                                                                        | vi   |
| NEWS AND ANNOUNCEMENTS .....                                                                                                                                                                                                                                                        | xiii |
| INVITED REVIEW:                                                                                                                                                                                                                                                                     |      |
| <i>Invited review: Effects of milk ration on solid feed intake, weaning, and performance in dairy heifers</i><br>M. A. Khan, D. M. Weary, and M. A. G. von Keyserlingk.....                                                                                                         | 1071 |
| <i>Invited review: Quantitative trait nucleotide determination in the era of genomic selection</i><br>J. I. Weller and M. Ron.....                                                                                                                                                  | 1082 |
| DAIRY FOODS:                                                                                                                                                                                                                                                                        |      |
| <i>Hot topic: Microstructure quantification by scanning electron microscopy and image analysis</i><br>of goat cheese curd<br>S. Rovira, M. B. López, E. Ferrandini, and J. Laencina.....                                                                                            | 1091 |
| Influence of microflora on texture and contents of amino acids, organic acids, and volatiles<br>in semi-hard cheese made with DL-starter and propionibacteria<br>U. Rehn, F. K. Vogensen, S.-E. Persson, K. Hallin Saedén, B. F. Nilsson,<br>and Y. Ardö .....                      | 1098 |
| Improved viability of bifidobacteria in fermented milk by cocultivation with <i>Lactococcus lactis</i><br>subspecies <i>lactis</i><br>T. Odamaki, J. Z. Xiao, S. Yonezawa, T. Yaeshima, and K. Iwatsuki.....                                                                        | 1112 |
| Comparative analysis of an intestinal strain of <i>Bifidobacterium longum</i> and a strain<br>of <i>Bifidobacterium animalis</i> subspecies <i>lactis</i> in Cheddar cheese<br>M. Scheller and D. J. O'Sullivan.....                                                                | 1122 |
| Milk fatty acid composition and cheese texture and appearance from cows fed hay or different<br>grazing systems on upland pastures<br>M. Coppa, A. Ferlay, F. Monsallier, I. Verdier-Metz, P. Pradel, R. Didienne,<br>A. Farruggia, M. C. Montel, and B. Martin .....               | 1132 |
| Cloning of genes encoding colicin E2 in <i>Lactococcus lactis</i> subspecies <i>lactis</i> and evaluation<br>of the colicin-producing transformants as inhibitors of <i>Escherichia coli</i> O157:H7<br>during milk fermentation<br>S. M. Liu, D. M. Miller, and R. F. Roberts..... | 1146 |
| Effect of heat treatments on stability of $\beta$ -lactams in milk<br>M. Roca, L. Villegas, M. L. Kortabitarte, R. L. Althaus, and M. P. Molina .....                                                                                                                               | 1155 |
| Evaluation of commercially available, wide-pore ultrafiltration membranes for production<br>of $\alpha$ -lactalbumin-enriched whey protein concentrate<br>C. Marella, K. Muthukumarappan, and L. E. Metzger .....                                                                   | 1165 |
| Enhancement of the hydrolysis activity of $\beta$ -galactosidase from <i>Geobacillus stearothermophilus</i><br>by saturation mutagenesis<br>Y.-N. Dong, X.-M. Liu, H.-Q. Chen, Y. Xia, H.-P. Zhang, H. Zhang, and W. Chen .....                                                     | 1176 |
| The effect of starter culture and annatto on the flavor and functionality of whey protein concentrate<br>R. E. Campbell, R. E. Miracle, and M. A. Drake.....                                                                                                                        | 1185 |
| Production of antilisterial bacteriocins by staphylococci isolated from bovine milk<br>M. A. V. P. Brito, G. A. Somkuti, and J. A. Renye Jr. ....                                                                                                                                   | 1194 |

|                                                                                                                                                                                                                            |      |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| High-pressure homogenization of raw and pasteurized milk modifies the yield, composition, and texture of queso fresco cheese<br>D. Escobar, S. Clark, V. Ganesan, L. Repiso, J. Waller, and F. Harte.....                  | 1201 |
| Results from raw milk microbiological tests do not predict the shelf-life performance of commercially pasteurized fluid milk<br>N. H. Martin, M. L. Ranieri, S. C. Murphy, R. D. Ralyea, M. Wiedmann, and K. J. Boor ..... | 1211 |
| Ripening-related changes in Serra da Estrela cheese: A stereological study<br>P. J. M. Reis and F. X. Malcata .....                                                                                                        | 1223 |
| Effect of different growth conditions on biomass increase in kefir grains<br>Z. Guzel-Seydim, T. Kok-Tas, B. Ertekin-Filiz, and A. C. Seydim.....                                                                          | 1239 |

## PHYSIOLOGY AND MANAGEMENT:

|                                                                                                                                                                                                                                                             |      |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| Locomotion and claw disorders in Norwegian dairy cows housed in freestalls with slatted concrete, solid concrete, or solid rubber flooring in the alleys<br>T. Fjeldaas, Å. M. Sogstad, and O. Østerås.....                                                 | 1243 |
| Layouts for small freestall dairy barns: Effect on milk yield for cows in different parities<br>G. Næss, K. E. Bøe, and O. Østerås.....                                                                                                                     | 1256 |
| Identification of ABCA1 and ABCG1 in milk fat globules and mammary cells—Implications for milk cholesterol secretion<br>O. Mani, M. Körner, C. E. Ontsouka, M. T. Sorensen, K. Sejrsen, R. M. Bruckmaier, and C. Albrecht .....                             | 1265 |
| Differential gene expression of the toll-like receptor-4 cascade and neutrophil function in early- and mid-lactating dairy cows<br>M. G. H. Stevens, L. J. Peelman, B. De Spiegeleer, A. Pezeshki, G. R. Van De Walle, L. Duchateau, and C. Burvenich ..... | 1277 |
| Behavior of lactating Holstein-Friesian cows during spontaneous cycles of estrus<br>G. Sveberg, A. O. Refsdal, H. W. Erhard, E. Kommisrud, M. Aldrin, I. F. Tvete, F. Buckley, A. Waldmann, and E. Ropstad .....                                            | 1289 |
| Effect of the prolactin-release inhibitor quinagolide on lactating dairy cows<br>P. Lacasse, V. Lollivier, R. M. Bruckmaier, Y. R. Boisclair, G. F. Wagner, and M. Boutinaud .....                                                                          | 1302 |
| Milk production and feeding behavior in the camel ( <i>Camelus dromedarius</i> ) during 4 watering regimens<br>T. Bekele, N. Lundeheim, and K. Dahlborn .....                                                                                               | 1310 |
| Risk of <i>Mycoplasma bovis</i> transmission from contaminated sand bedding to naive dairy calves<br>D. J. Wilson, A. Justice-Allen, G. Goodell, T. J. Baldwin, R. T. Skirpstunas, and K. B. Cavender.....                                                  | 1318 |
| Randomized clinical trial of antibiotic and prostaglandin treatments for uterine health and reproductive performance in dairy cows<br>J. Dubuc, T. F. Duffield, K. E. Leslie, J. S. Walton, and S. J. LeBlanc.....                                          | 1325 |
| Effects of postpartum uterine diseases on milk production and culling in dairy cows<br>J. Dubuc, T. F. Duffield, K. E. Leslie, J. S. Walton, and S. J. LeBlanc .....                                                                                        | 1339 |
| The effect of bluetongue virus serotype 8 on milk production and somatic cell count in Dutch dairy cows in 2008<br>I. M. G. A. Santman-Berends, J. J. Hage, T. J. G. M. Lam, O. C. Sampimon, and G. van Schaik .....                                        | 1347 |
| Induced lactation in pubertal heifers: Efficacy, response to bovine somatotropin, and profitability<br>A. L. Macrina, P. R. Tozer, and R. S. Kensinger .....                                                                                                | 1355 |

## NUTRITION, FEEDING, AND CALVES:

Effects of prepartum dietary calcium level on calcium and magnesium metabolism  
in periparturient dairy cows

**C. Kronqvist, U. Emanuelson, R. Spörndly, and K. Holtenius..... 1365**

The effect of the feed-to-buffer ratio on bacterial diversity and ruminal fermentation in single-flow  
continuous-culture fermenters

**G. Cantalapiedra-Hijar, D. R. Yáñez-Ruiz, C. J. Newbold, and E. Molina-Alcaide..... 1374**

Prepartum dietary energy intake affects metabolism and health during the periparturient period  
in primiparous and multiparous Holstein cows

**N. A. Janovick, Y. R. Boisclair, and J. K. Drackley ..... 1385**

Weaning age of calves fed a high milk allowance by automated feeders: Effects on feed, water,  
and energy intake, behavioral signs of hunger, and weight gains

**A. M. de Passillé, T. F. Borderas, and J. Rushen..... 1401**

Dry matter and nutritional losses during aerobic deterioration of corn and sorghum silages  
as influenced by different lactic acid bacteria inocula

**E. Tabacco, F. Righi, A. Quarantelli, and G. Borreani..... 1409**

Effect of decreasing dietary phosphorus supply on net recycling of inorganic phosphate  
in lactating dairy cows

**L. Puggaard, N. B. Kristensen, and J. Sehested..... 1420**

Modeling degradation ratios and nutrient availability of anthocyanidin-accumulating *Lc*-alfalfa  
populations in dairy cows

**A. Jonker, M. Y. Gruber, Y. Wang, B. Coulman, A. Azarfar, J. J. McKinnon,  
D. A. Christensen, and P. Yu..... 1430**

Effects of a combination of feed additives on methane production, diet digestibility, and animal  
performance in lactating dairy cows

**S. M. van Zijderveld, B. Fonken, J. Dijkstra, W. J. J. Gerrits, H. B. Perdok,  
W. Fokkink, and J. R. Newbold..... 1445**

Milk production and energy efficiency of Holstein and Jersey-Holstein crossbred dairy cows offered  
diets containing grass silage

**B. Xue, T. Yan, C. F. Ferris, and C. S. Mayne ..... 1455**

Effect of feeding biotin on milk production and hoof health in lactating dairy cows:

A quantitative assessment

**I. J. Lean and A. R. Rabiee ..... 1465**

Flowering catch crops used as forage plants for dairy cows: Influence on fatty acids and tocopherols  
in milk

**T. Kälber, J. S. Meier, M. Kreuzer, and F. Leiber..... 1477**

Influence of a reduced-starch diet with or without exogenous amylase on lactation performance  
by dairy cows

**L. F. Ferraretto, R. D. Shaver, M. Espineira, H. Gencoglu, and S. J. Bertics ..... 1490**

Performance, metabolic, and endocrine responses of periparturient Holstein cows  
fed 3 sources of fat

**C. Caldari-Torres, A. L. Lock, C. R. Staples, and L. Badinga..... 1500**

Effect of applying inoculants with heterolactic or homolactic and heterolactic bacteria on the  
fermentation and quality of corn silage

**K. G. Arriola, S. C. Kim, and A. T. Adesogan..... 1511**

Pancreatic enzyme deficiency depends on dietary protein origin in milk-fed calves

**P. Guilloteau, M. Plodari, V. Romé, G. Savary, L. Le Normand, and R. Zabielski ..... 1517**

Metabolism of 2-hydroxy-4-(methylthio)butanoate (HMTBA) in lactating dairy cows

**H. Lapierre, M. Vázquez-Añón, D. Parker, P. Dubreuil, G. Holtrop,  
and G. E. Lobley ..... 1526**

|                                                                                                                                                                    |      |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| <i>Short communication:</i> Improving passive transfer of immunoglobulins in calves. III.<br>Effect of artificial mothering<br>D. M. Haines and S. M. Godden ..... | 1536 |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|

## GENETICS AND BREEDING:

|                                                                                                                                                                                                                                                     |      |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| Hygiene-related and feed-related hoof diseases show different patterns of genetic correlations to clinical mastitis and female fertility<br>L. H. Buch, A. C. Sørensen, J. Lassen, P. Berg, J.-Å. Eriksson, J. H. Jakobsen, and M. K. Sørensen..... | 1540 |
| Variants in the pregnancy-associated plasma protein-A2 gene on <i>Bos taurus</i> autosome 16 are associated with daughter calving ease and productive life in Holstein cattle<br>S. Wickramasinghe, G. Rincon, and J. F. Medrano.....               | 1552 |
| Effects of genomic selection on genetic improvement, inbreeding, and merit of young versus proven bulls<br>A. P. W. de Roos, C. Schrooten, R. F. Veerkamp, and J. A. M. van Arendonk.....                                                           | 1559 |
| Culling reasons in organic and conventional dairy herds and genotype by environment interaction for longevity<br>T. Ahlman, B. Berglund, L. Rydhmer, and E. Strandberg.....                                                                         | 1568 |
| Antibody and cell-mediated immune responses and survival between Holstein and Norwegian Red × Holstein Canadian calves<br>S. L. Cartwright, N. Begley, L. R. Schaeffer, E. B. Burnside, and B. A. Mallard.....                                      | 1576 |
| <i>Short communication:</i> Genetic relationships among daily energy balance, feed intake, body condition score, and fat to protein ratio of milk in dairy cows<br>N. Buttchereit, E. Stamer, W. Junge, and G. Thaller .....                        | 1586 |
| <i>Short communication:</i> Genetic effects of heat stress on days open for Thai Holstein crossbreds<br>W. Boonkum, I. Misztal, M. Duangjinda, V. Pattarajinda, S. Tumwasorn, and S. Buaban .....                                                   | 1592 |
| <i>Short communication:</i> Evidence for a major gene by polygene interaction for milk production traits in German Holstein dairy cattle<br>M. Streit, N. Neugebauer, T. H. E. Meuwissen, and J. Bennewitz .....                                    | 1597 |
| <i>Short communication:</i> Best prediction of 305-day lactation yields with regional and seasonal effects<br>J. B. Cole, D. J. Null, and A. De Vries.....                                                                                          | 1601 |

## OUR INDUSTRY TODAY:

|                                                                                                                                                                                                                                    |      |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| Sodium content in retail Cheddar, Mozzarella, and process cheeses varies considerably in the United States<br>S. Agarwal, D. McCoy, W. Graves, P. D. Gerard, and S. Clark.....                                                     | 1605 |
| The National Cohort of Dairy Farms—A data collection platform for mastitis research in Canada<br>K. K. Reyher, S. Dufour, H. W. Barkema, L. Des Côteaux, T. J. DeVries, I. R. Dohoo, G. P. Keefe, J.-P. Roy, and D. T. Scholl..... | 1616 |
| Development and application of an economic ranking index for perennial ryegrass cultivars<br>M. McEvoy, M. O'Donovan, and L. Shalloo.....                                                                                          | 1627 |
| Errata .....                                                                                                                                                                                                                       | 1640 |
