PROFITABLE ENGINEERING FOR VOICE, VIDEO AND DATA VOL 24 NO. 4 APRIL 2007

Workforce Dispatch

features

22 Dynamic Dispatch

Balancing workload and workforce, hour to hour and minute to minute. That's what dynamic dispatch is all about. Is your mobile workforce a high-performance team?

28 Synchronization

New specs and convergence of services are making precise timing more critical than ever.

34 Managing Bandwidth and Enabling Targeted Ads

Powerful processing benefits switched and on-demand video, but also makes room for revenue-generating targeted ads.

38 The OSS Challenge

With consolidation having slowed down, now is a good time to look beyond the status quo and toward the capabilities and value of a highly integrated operations support system.

columns

Broadband 14

Ron Hranac examines 64-QAM in, of all places, the upstream.

Telephony 16

Justin Junkus provides some background on synchronization and timing.

SCTE Message 49

Joel Welch runs down new features of the SCTE's 2007 CBL&D program.
