features

18 The Hitchiker's Guide to IPv6: Prepare Don't Panic

Up ahead at the edge of the IPv4 universe of addresses are these bridges: Dual-Stack Lite and NAT444.

22 IPTV: A Cable Perspective

How to evolve to deliver IPTV services. Key drivers, three scenarios and elementary architecture.

Plus: IPTV Migration Architecture

A pull-out wall chart that accompanies the feature story, illustrating existing and future elements of a cable IPTV architecture.

departments

28 Network IT

Content distributions networks (CDNs) and data centers ramp up. Are outsourced video data centers in your future?

33 Optical Outlook

Cox Backbone grows with ROADMs. This level of automation is best suited for new networks.

columns

Broadband 14

Ron Hranac encourages readers to continue making MER better.

Bullpen 16

Glen Hardin proposes a big gun: a TDM-to-FDM Fourier transform.

Reality Check 38

Victor Blake notes the demands and benefits of standards work.
