2007 Vol.31 No.2

Journal of Light & Visual Environment

Volume 31 Number 2, August 2007

CONTENTS

Lighting Photo Albums

Illumination of Nagasaki Museum of History and Culture

59

M. Iwasaka

LED Illumination System for Ferris Wheel, Mitsui Greenland

60

J. Fujita

Papers

Optical Properties of ZnCdS:I Orange and ZnS_{0.99}Te_{0.01}:I

White Thin Film Phosphor for High Ra White LED

61

S. Fujii, N. Tasaki, N. Shinomura, S. Kurai, Y. Yamada and T. Taguchi

A New Lighting Communication System for Audio Signal with White LED

65

S. Liu, A. Minato, S. Ozawa and M. Nakagawa

Pupil Light Reflex Produced by Glare under Mesopic Adaptation

70

E. Colombo, S. A. Comastri, L. Issolio and R. Echarri

Quantitative Evaluation of Perceived Whiteness under Different Illuminations

80

I. Katayama, K. Masumi and T. Aoki

Effect of the Highest Lightness on the Brightness Size

of the Recognized Visual Space of Illumination

89

H. Yamaguchi, H. Shinoda and M. Ikeda

Perceived Whiteness under Different Lighting Conditions

98

A. Oota, S. Kanaya, M. Ayama and K. Mukai

Papers Presented at 2007 Annual Conference of IEI-J, August 23-24

110

Production of Electric Lamps in Japan 2004-2006

118

Notes for Contributors
