Solving Problems for the Growing World

August 2009
Vol. 57, No. 7
ISSN 0002-161X

Agricultural Research is published 10 times a year by the Agricultural Research Service, U.S. Department of Agriculture (USDA). The Secretary of Agriculture has determined that this periodical is necessary in the transaction of public business required by law.

Tom Vilsack, Secretary
U.S. Department of Agriculture

Rajiv Shah, Under Secretary
Research, Education, and Economics

Edward B. Knipling, Administrator
Agricultural Research Service

Sandy Miller Hays, Director
Information Staff

Editor: Robert Sowers (301) 504-1651

Associate Editor: Sue Kendall (301) 504-1623

Art Director: William Johnson (301) 504-1659

Photo Editor: Anita Daniels (301) 504-1609

Staff Photographers:

Peggy Greb (301) 504-1620

Stephen Ausmus (301) 504-1607

Most information in this magazine is public property and may be reprinted without permission (except where copyright is noted). Non-copyrighted articles and high-resolution digital photos are available on the World Wide Web at ars.usda.gov/ar.

Paid subscriptions are available from the U.S. Government Printing Office (Superintendent of Documents). See back cover for ordering information. Complimentary 1-year subscriptions are available directly from ARS to public libraries, schools, USDA employees, and the news media. Call (301) 504-1638 or e-mail armag@ars.usda.gov.

This magazine may report research involving pesticides. It does not contain recommendations for their use, nor does it imply that uses discussed herein have been registered. All uses of pesticides must be registered by appropriate state and/or federal agencies before they can be recommended.

Reference to any commercial product or service is made with the understanding that no discrimination is intended and no endorsement by USDA is implied.

The USDA prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.

Cover: All-natural carrot-ginger wrap around a "Sunny California Roll." Edible wraps from purées of carrot and other fresh vegetables and fruits have been developed with the help of ARS researchers from the Processed Foods Research Unit, Albany, California. See story on page 7. Photo by Peggy Greb. (D1618-1)

IN THE NEXT ISSUE

FOCUS ON SUSTAINABILITY—Each region of the United States has its own challenges when it comes to agricultural sustainability. In the West, there are water-supply problems. In the Midwest, it's production of crops for biofuels. And in the East, it's expanding populations and diminishing farmlands. The next issue of the magazine looks at some of the ways ARS is working toward truly sustainable agriculture—practices that are simultaneously productive, profitable, and protective of our natural resources.
