Contents

<i>Foreword</i>	ix
1 Introduction to innovations in food labelling	1
<i>Janice Albert, Food and Agricultural Organization of the United Nations (FAO), Italy</i>	
1.1 Introduction: the evolution of food labelling	1
1.2 Standards and legal issues	2
1.3 Labelling to protect and promote health	3
1.4 Labelling to protect the environment and promote sustainable food production	3
1.5 Labelling to promote social well-being and protect culture	4
1.6 Labelling in relation to new technologies	4
2 The Codex Alimentarius and Food Labelling: delivering consumer protection	5
<i>Alan W. Randell, former Secretary of the Codex Alimentarius Commission, Italy</i>	
2.1 Introduction	5
2.2 The Codex framework for food labelling	6
2.3 Specific food labelling issues in the Codex general standard	7
2.4 Claims and other interpretative guidelines	9
2.5 Nutrition labelling: health and nutrition claims	10
2.6 Labelling, food safety and allergens	12
2.7 Foods derived from biotechnology	13
2.8 Codex, labelling and advertising	13
2.9 Conclusions	14
2.10 References	15

3	International legal frameworks for food labelling and consumer rights	17
	<i>Margret Vidar, Food and Agriculture Organization of the United Nations (FAO), Italy</i>	
3.1	Introduction	17
3.2	International human rights law	18
3.3	Consumer protection	22
3.4	International trade agreements	23
3.5	Conclusions	33
3.6	Acknowledgement	34
3.7	References	34
4	Government and voluntary policies on nutrition labelling: a global overview	37
	<i>Corinna Hawkes, Independent Consultant, Food and Nutrition Policy, France</i>	
4.1	Introduction	37
4.2	Nutrition facts tables	39
4.3	Graphical nutrition labelling	46
4.4	Trends	51
4.5	Conclusions	54
4.6	References	56
5	Labelling of allergenic foods of concern in Europe	59
	<i>Sue Hattersley and Chun-Han Chan, Food Standards Agency, United Kingdom</i>	
5.1	Introduction	59
5.2	Drivers behind the development of specific EU allergen labelling legislation	60
5.3	Exemptions for certain processed ingredients derived from the specified allergenic foods	62
5.4	Other allergen information that manufacturers can choose to put on food packaging	64
5.5	Possible legislative developments in the future, including foods sold non-prepacked	68
5.6	Foods sold as 'free from'	70
5.7	Conclusions	71
5.8	References	72
6	Organic food labels: history and latest trends	75
	<i>Antonio Compagnoni, Institute for Ethical and Environmental Certification (ICEA), Italy</i>	
6.1	Introduction	75
6.2	Organic agriculture definition	76

6.3	From alternative movement to international and national legislation	76
6.4	From niche to mainstream market	78
6.5	Main normative frame	79
6.6	Codex Alimentarius organic norm	80
6.7	International Federation of Organic Agriculture Movements (IFOAM) organic norms	81
6.8	Private standards	85
6.9	European Union organic regulation	87
6.10	United States organic rules (National Organic Program)	89
6.11	Japanese Agricultural Standard (JAS) of Organic Agricultural Products	91
6.12	International Task Force for organic regulations harmonization and equivalence	91
6.13	References	92
7	FAO's ecolabelling guidelines for marine capture fisheries: an international standard	94
	<i>Rolf Willmann, Kevern Cochrane and William Emerson, Food and Agriculture Organization of the United Nations (FAO), Italy</i>	
7.1	Introduction	94
7.2	Why ecolabelling	95
7.3	History of the FAO ecolabelling guidelines for fish and fishery products	96
7.4	The development of the FAO ecolabelling guidelines	98
7.5	Conclusions	115
7.6	References	115
8	Voluntary environmental and social labels in the food sector	117
	<i>Pascal Liu, Food and Agriculture Organization of United Nations (FAO), Italy</i>	
8.1	Introduction	117
8.2	Background: environmental and social issues in agriculture	118
8.3	Main environmental and social labelling schemes in agriculture	119
8.4	Fair trade	122
8.5	Main markets for labelled foods	124
8.6	Benefits and costs for producers	127
8.7	Case study: organic bananas	128
8.8	Case study: fairtrade-labelled coffee	132
8.9	Conclusions	135
8.10	References	136

9 Geographic origin and identification labels: associating food quality with location	137
<i>Emilie Vandecandelaere, Food and Agriculture Organization of the United Nations (FAO), Italy</i>	
9.1 Introduction	137
9.2 Labels on quality linked to geographical origin: rules and diversity in the international context	139
9.3 The reasons for the development of geographical indications	144
9.4 Setting up a GI label, a two-level approach	147
9.5 Conclusions	151
9.6 Acknowledgements	151
9.7 References	151
10 New technologies and food labelling: the controversy over labelling of foods derived from genetically modified crops	153
<i>Janice Albert, Food and Agriculture Organization of the United Nations (FAO), Italy</i>	
10.1 Agricultural biotechnology and consumers	153
10.2 Policy options	154
10.3 Commercial experiences with labelling	164
10.4 Conclusions	165
10.5 References	166
