

Shonali Pachauri

An Energy Analysis of Household Consumption

Changing Patterns of
Direct and Indirect Use in India

Springer

Table of Contents

Preface	IX
Acknowledgements	XI
Chapter 1: Introduction	1
1.1 Background and Significance	1
1.2 Context and Motivation	4
1.3 Objectives and Purpose	7
1.4 Current Approaches and Future Perspectives to Energy Studies	9
1.5 Organisation of the Book	11
Chapter 2: An Overview of Energy Consumption in India	13
2.1 Lifestyles, Energy and Development over the Last Half-Century	13
2.2 A Short Digression on Energy Terms	18
2.3 Trends in Energy Consumption in India	19
2.4 Some International Comparisons of Energy Use	23
2.5 Household Energy Use	26
2.6 Policy, Regulation and Pricing in the Energy Sector in India	34
Chapter 3: Energy Analysis and Energy Intensities for India	39
3.1 Introduction to Energy Analysis	39
3.2 Energy Analysis Methods in Practice	40
3.3 Input-Output Energy Analysis	41
3.4 Theory of Input-Output Energy Analysis	42
3.5 Data Requirements of Input-Output Energy Analysis for India	43
3.6 Methodology for Calculating Sectoral Energy Intensities	45
3.7 Results	48
3.8 Comparison with Energy Intensities from Previous Studies	56
3.9 Discussion and Conclusions	58
Appendix 3A: Sector Classification for Input-Output Energy Analysis	60
Appendix 3B: Technical Note on Creating a Hybrid I-O Matrix	64
Appendix 3C: Detailed Results Tables	68

Chapter 4: Total and Average Household Energy Requirements	85
4.1 Overview of Literature on Household Energy Requirements	85
4.2 Methods and Data	87
4.3 Results	88
4.4 Decomposition Analysis	94
4.5 Comparison with Previous Studies	98
4.6 Discussion and Conclusions	100
Appendix 4A: Goods and Services Included in the Consumption Categories	102
Appendix 4B: Detailed Results Tables	104
Chapter 5: Disaggregate Household Energy Requirements	109
5.1 Introduction	109
5.2 Methods, Data Sources, and Data Preparation	109
5.3 Variations in Household Energy Requirements across Households	118
5.4 Regression Analysis of Cross-sectional Variations	141
5.5 Discussion and Conclusions	143
Appendix 5A: Corrections to NSS Data for Underestimation of Dung Use	145
Appendix 5B: Appendix Tables	147
Chapter 6: Energy Requirements and Well Being	151
6.1 Introduction	151
6.2 Direct Energy Use	152
6.3 Indirect Food Energy Requirements and Well Being	172
6.4 Discussion and Conclusions	178
Appendix 6A: Appendix Tables	180
Chapter 7: Conclusions and Reflections	181
7.1 Key Empirical Findings and Their Implications	181
7.2 Conclusions and Limitations of the Data and Methods	192
7.3 Future Research	197
References	199
