

A COMPLETE COURSE IN CANNING

And Related Processes
THIRTEENTH EDITION

BOOK I FUNDAMENTAL INFORMATION ON CANNING

TABLE OF CONTENTS

INTRODUCTION	1
CHAPTER 1. CREATING A BUSINESS PLAN	11
Proposed Outline For A Business Plan	11
Business Organization.	12
Business Purpose And Function	12
The Marketing Plan	12
Management Plan	15
Operational Plans Summary	17
The Financial Plan	18
Financial Planning Assumptions	19
Operational Plan—Profit and Loss Projection	19
Source of Funds Schedule	22
Pro Forma Balance Sheet	22
Cash Flow Projection	30
A Final Word	30
CHAPTER 2. PLANT LOCATION AND CONSTRUCTION	31
Factors Influencing Plant Location	32
Purpose	32
Selecting A Geographical Area	33
Search for A Specific Location	34
Value to Management	34
Basic Considerations In Evaluating Plant Location	35
Site Characteristics	38
Building A Canning Plant	38
Construction Factors	38
Lighting	42
Layout Of A Canning Plant	45
Government Regulations Relating To Building Construction	49
Environmental Considerations	50
Project Impacts And Their Magnitude	51
General Information	51
Instructions	51
Energy Conservation Considerations	57
Safety Considerations	58
Sanitation Considerations	60

CHAPTER 3. FOOD LAWS, REGULATIONS, AND STANDARDS	63
The Law In General	63
Federal Register And The Code of Federal Regulations	64
How to Obtain Regulations Issued by U.S. Food and Drug Administration	64
Title 21, Code of Federal Regulations	64
Prohibited Acts (Violations)	65
Food Adulteration	65
Enforcement	66
Food Misbranding	66
Premarket Testing and Approvals	66
Imports	67
Exports	68
Interstate Shipments	68
Low-Acid Canned Foods Registration and Process Filing	69
Color Additives	70
Scientific Functions: Methods of Analysis	71
Further Information	71
Principal Requirements Of Food Law	71
Health Safeguards	72
Economic Safeguards	72
Required Label Statements	73
Foods for Special Dietary Uses	73
Infant Foods	74
Sanitation Requirements	74
Current Good Manufacturing Practice Regulations (GMP's)	75
Process Deviations	77
Foods Not Covered Under the Low-Acid Canned Foods Regulations	78
Foods Not Covered Under the Acidified Foods Regulations	79
The Relationship between pH, Water Activity, and Low-Acid or Acidified Foods Regulations	79
Important Information for Processing Plants in Other Countries	80
Reasons Why Import Products May Be Detained	80
Information to be Included in Invoices or Shipment Manifest	80
Deviations from GMP Regulations	81
Tolerances for Filth	82
GRAS Substances	82
Food Additives	83
Housewares	84
Food Standards	84
Canned Fruits And Fruit Juices	87

CHAPTER 3 — Continued

Fill-of-Container Standards—Fruits and Juices	87
Canned Vegetables	88
Dried Fruits and Vegetables	89
Dried Figs and Dates	89
Dried Mushrooms	90
Fresh Fruits	90
Pesticidal Residues on Raw Agricultural Commodities	90
Fruit Jams (Preserves), Jelliers, Fruit Butters, Marmalades	91
Beverages And Beverage Materials	92
Alcoholic Beverage	92
Nonalcoholic Beverages	92
Bottled Waters	93
Fishery Products	93
Names for Seafoods	94
Canned Fish	94
Shellfish Certification and Standards for Canned Oysters	96
Rock Lobster, Spiny Lobster, Sea Crayfish	96
Shrimp	96
Meat And Meat Food Products	96
Poultry and Poultry Products	97
Nuts And Nut Products	97
Edible Oils	99
Margarine, Mayonnaise, Salad Dressings	99
Olives	99
Spices, Spice Seeds, And Herbs	99
Color Additives	102
Suggestions To Foreign Exporters And United States Importers	
To Expedite Entries	102
Retail Food Protection	103
Interstate Travel Sanitation	104
Food Plant Inspection	104
Federal Food Standards	105
Voluntary Standards	106
U.S. Department of Agriculture Grade Standards	106
National Marine Fisheries Service Grade Standards	107
Mandatory Standards	107
U.S. Department of Agriculture Standards	
of Composition and Identity	107
U.S. Food and Drug Administration Standards	108
Standards of Identity	108

CHAPTER 3 – Continued

Standards of Minimum Quality	108
Standards of Fill of Container	109
Where to Obtain Copies of Federal Standards	109
Federal Specifications	109
Codex Alimentarius	109

CHAPTER 4. KOSHER AND HALAL FOOD REGULATIONS 111

Scope Of Market-U.S. And Worldwide	111
Demographics	111
Importance Of The Process	112
Major Concerns	113
Equipment Kosherization Or Preparing For Halal Production	114
Examples Of A Few Special Issues Of Concern	115
Kosher And Halal Supervision Agencies	117

CHAPTER 5. A FOOD LABELING GUIDE 123

General Food Labeling Requirements	124
Name Of Food	128
Net Quantity Of Contents Statements	133
Ingredient Lists	137
Nutrition Labeling	140
Claims	160
Miscellaneous	184
Key Word Index	187
Additional FDA Assistance	189
Publications	189
Sources	190
FDA District Offices	190

CHAPTER 6. WATER 193

Supply	193
Bacterial Content of Water	198
Cannery Water Chlorination	201
Chlorination of Cooling Water	205
Canning Water Requirements	206
Water Analysis	207
Chemicals In Water	210
Water Quality In Vegetable Canning	214
Water Use And Conservation	215
Water storage	216

CHAPTER 6 — Continued

Unnecessary Use or Waste of Water	216
Reuse of Water	217
Protecting The Water Supply	220
Separate Water Supplies	223

CHAPTER 7. ENERGY REQUIREMENTS AND SUPPLY

Introduction	225
Steam Supply	225
Forms of Steam	226
Properties of Steam Supply	227
Steam Production	228
Cogeneration	230
Consumption Demand	231
Steam Requirements of Products	232
Steam Requirements—Unit Operations	232
Estimation of Steam Requirements	235
Suggestions For Proper Boiler Maintenance	235
Air Pollution	238
Energy Conservation	239
NFPA Bulletin 36-L on Energy Conservation	240
Introduction	240
Organization For Utility Management	241
Utility Audits	242
Housekeeping Operations: A Good Place To Start	242
Equipment Maintenance	248

CHAPTER 8. FOOD PROCESSING RESIDUALS

TREATMENT AND DISPOSAL	249
Factors To Be Considered In Waste Disposal Problems	250
Facility Needs Survey	250
Methods Of Treatment And Disposal Of Wastes	252
Primary, Secondary, and Tertiary Methods of Waste Treatment	252
Removal of Gross Solids by Screening	252
Screen Types in General Use	253
Disposal of Gross Solids Removed by Screening	253
Treatment/Disposal of Screened Wastewaters	253
Biological Methods for Treatment of Food Processing Wastewaters	256
Chemical Treatment to Remove Suspended Solids	257
Aeration-Flotation Process for Removal of Suspended Solids	258
Odor Control in Cannery Waste Lagoons	259
Disposal of Waste by Spray Irrigation	259

CHAPTER 9. CANNING OPERATIONS	263
Receiving Raw Products and Packaging Materials	263
Separation of the Edible Portion	263
Washing	263
Size Grading	267
Inspecting	267
Blanching	269
Peeling	273
Size Reduction	276
In-Plant Handling of Cans and Can Ends	277
Cleaning the Cans	278
Filling	278
Vacuum in Canned Foods	282
Exhausting and Vacuum Closing	283
Can Closing	287
Dud Detector	289
Container Coding	290
 CHAPTER 10. EQUIPMENT AND SANITARY DESIGN	 293
Equipment Requirements	293
Small Plant	294
Large Plant	295
Sanitary Construction Of Food Plant Equipment	295
Food Plant Equipment Design	296
Sanitation Criteria for Pipes, Valves, and Pumps	297
Materials	297
Design and Construction	298
Placement and Installation	300
Care And Use of Temperature Controllers And Recorders	301
Equipment Corrosion	302
 CHAPTER 11. PROCESS ROOM OPERATIONS	 305
Good Manufacturing Practice Regulations	305
Commercial Sterility in Canned Foods	306
Thermal Sterilization Processes—Critical Factors	309
Sterilization In Discontinuous, Non-Agitating Retorts-Cans	309
Retort Equipment And Procedure	310
Equipment	310
Type of Retort	310
Retort Equipment and Operation	310
Instrumentation	322

CHAPTER 11 — Continued

Container Loading Equipment	324
Process Timing Equipment	324
Maintenance of Equipment	325
Procedure	325
Coding	325
Rapid Handling and Prompt Retorting of Filled Containers	326
Initial Temperature (IT)	326
Preventing Mistakes in the Cook Room	326
Steps in a Retort Process Cycle	327
Cooling and Storage	328
Precautions for Handling Filled Cans	331
Can Dimensions	332
Cooling Cans Under Pressure In Retorts	333
Pressure Cooling Hook-Up	333
Pressure Cooling Under Air Pressure	333
Pressure Cooling Under Steam Pressure	340
Water Process With Superimposed Air Pressure	340
Automatic Operation	341
Retort Maintenance And Testing	341
Testing And Adjusting Mercury Thermometers	342
Equipment Needed	342
Procedure for Testing	343
Maintenance of Other Retort Equipment	344
Post Processing Can Handling	344
Spoilage Factors	345
Operating Precautions	345
Sanitary Design	346
Sterilization In Discontinuous, Non Agitating Retorts-Glass Containers ...	348
Equipment	348
Retort Equipment	348
Instrumentation and Controls	350
Glass Container Loading Equipment	352
Maintenance of Equipment	352
Installation	353
Retort Details	354
Vertical Retorts	354
Horizontal Retorts	355
Procedure	358
Precautions For Safe Retort Operations	364
Important Points For Cannery	361
Important Points For Sterilization Equipment Operators	365
Time-Temperature Monitoring of Sterilization	369

CHAPTER 12. STERILIZATION SYSTEMS	373
Federal Regulations Applicable To Sterilization Systems	
For Low-Acid Canned Foods	373
Crateless Retort Systems	373
FMC Orbital Sterilizer	376
Continuous Rotary Pressure Sterilizers	379
Hydrostatic Pressure Sterilizers	384
Basic Operation	384
Advantages and Disadvantages	387
Horizontal Circulating Water Retorts	392
Systems Characteristics	392
"Flash 18" Process	397
Aseptic Processing	402
Introduction	402
Meaning Of Sterile And Of Sterility	404
Basic Concepts Of Food Sterilization	405
Food Sterilization Systems For Aseptic Packaging	405
Factors Which Affect Scheduled Sterilization Processes For	
Aseptically Packaged Foods	408
Direct Heating	410
Steam Sterilizing	410
Indirect Heating	413
Tubular Aseptic Sterilizing	413
Scraped Surface Sterilizing	415
Plate Sterilizing	416
Comparative Advantages Of Food Sterilization Systems For	
Aseptic Packaging	418
Surge Tank	418
Electric Heating	420
In-Process Measurement of Heat Penetration Profile Of Canned Foods ...	421
Computerized Control Of Thermal Sterilization	423
 CHAPTER 13. CLEANING AND SANITIZING	 429
Sanitation Program	429
Cleaning	430
The Cleaning Process	430
Types of Surfaces	431
Types of Soil(s)	431
Method of Application	432
Characteristics of Water	432
Sequence of Events During Cleaning	433

CHAPTER 13 – Continued

Factors Which Affect Cleaning	433
Cleaning Compounds and their Composition	434
Sanitizing	439
Basic Requirements of a Sanitizer	438
Factors Affecting the Efficacy of a Sanitizer	438
Sanitizer	439
Successful Application Of CIP Chemicals	445
Equipment Cleaning Procedures	447
Sanitation And Plant Personnel	450
Regulatory Status Of Cleaning And Sanitizing Compounds In The U.S. .	452
Control Of Insects	453
Sanitary Food Plant Buildings	456

CHAPTER 14. WAREHOUSING OF CANNED FOODS 459

Stacking and Casing	459
Warehousing of Uncased Cans	461
Palletizing	462
Bright Stacking	463
Effect of Warehouse Temperature on Quality	465
Effect of Freezing on Canned Food	467
External Can Corrosion in the Warehouse	467
Corrosion Resulting From Cannery Operations	469
Secondary Spoilage	470

APPENDIX..... 473

Temperature Conversion Table	473
Table of Conversion Factors—English to Metric.....	477
Metric Conversion Table	481
Decimal Equivalents (Millimeters to Inches).....	482
Decimal Equivalents (Inches to Millimeters).....	483
Table of Metric Weights and Measures	484
Tin Plate Basis Weights	485
Case Equivalents	486
Can Dimensions and Conversions—English to Metric	487
Container Dimension Conversion Chart	488
Sodium Chloride Brine Tables	490
Normal pH Ranges of Commercially Canned Foods	492
Sterilizing Values (F ₀) For Some Commercial Processes	494

GLOSSARY OF TERMS..... 495**SUBJECT INDEX 527****FIGURES/TABLES/CHARTS INDEX 535**
