STANDARD METHODS

FOR THE EXAMINATION OF

DAIRY PRODUCTS

Edited by

H. Michael Wehr, PhD

Joseph F. Frank, PhD

Contents

Technical Committee	viii
Contributors	ix
Consensus Reviewers	xi
Preface	xiii

Chapter 1:	Standard Methods	1
1.010	Introduction	1
1.020	Function of Standard Methods	1
1.030	Organization	2
1.040	Changes in This Edition	2
1.050	Standard Methods for International Trade	3
1.060	Adopting New Methodology and Uniformity of Methods	6
1.070	Classification of Methods	7
1.080	Chapter and Method Formats Used in This Edition	8
1.090	Method Selection	9
1.100	Split-Sample Test Program	10
1.110	Precision Parameters	11
1.120	Cited References	20
Chapter 2:	Laboratory Quality Assurance and Safety	21
2.010	Introduction	21
2.020	Quality Management System	23
2.030	Quality Elements	25
2.040	Common Dairy Laboratory Equipment and Supplies	38
2.050	Laboratory Safety	51
2.060	Cited References	60
Chapter 3:	Sampling Dairy and Related Products	63
3.010	Introduction	63
3.020	Sampling	64
3.030	Equipment	67
3.040	General Requirements	72
3.050	Sampling Raw Milk	76
3.060	Sampling Pasteurized Products	80
3.070	Sampling Other Products	81
3.080	Sampling Product Containers, Closures, Packing Materials, Equipment, Water, and Air	87
3.090	Radionuclides in Milk and Dairy Products (Class 0)	90
3.100	Cited References	90
Chapter 4:	Media and Dilution Water Preparation	93
4.010	Introduction	93
4.020	Suitability of Water	93

4.030	Preparation of Dilution Water	94
4.040	Water Toxicity Tests	95
4.050	Cleaning Glassware and Testing for Detergent Residues	95
4.060	Media	96
4.070	Basic Steps in Media Preparation	97
4.080	Adjustment of pH	98
4.090	Sterilization	98
4.100	Quality Control	100
4.110	Cited References	100
Chapter 5:	Pathogens in Milk and Milk Products	103
5.010	Introduction	103
5.020	<i>Salmonella</i> Species Cultural Method (FDA-BAM, Class A1)	106
5.030	Rapid Screening Tests for <i>Salmonella</i>	118
5.040	<i>Listeria monocytogenes</i> Cultural Method (FDA-BAM, Class A1)	126
5.050	<i>Staphylococcus aureus</i> Direct Plate Count (FDA-BAM, Class A1)	132
5.060	Ancillary Tests for <i>Staphylococcus aureus</i>	135
5.070	Enterotoxin Production and Isolate Analysis	138
5.080	Screening for Staphylococcal Enterotoxins (Class B)	138
5.090	Other Kits for Staphylococcal Enterotoxin Detection in Foods—Class B	142
5.100	Mastitis Culture Tests	143
5.110	Cited References	148
5.120	Other References	151
Chapter 6:	Microbiological Count Methods	153
6.010	Introduction	153
6.020	Standard Plate Count Method (Class O)	154
6.030	Plate Loop Count (PLC) Method (Class O)	168
6.040	Petrifilm™ Aerobic Plate Count (PAC) Method (Class A1)	174
6.050	Pectin Gel Method (Redigel) (Class A1)	178
6.060	Spiral Plate Count (SPLC) Method (Class A2)	179
6.070	Cited References	183
6.080	Other References	185
Chapter 7:	Coliform and Other Indicator Bacteria	187
7.010	Introduction	187
7.020	Colony Count Technique (without resuscitation) (Class O)	189
7.030	Most Probable Number Technique (Class O)	192
7.040	Modified VRBA Procedures (Class B)	199
7.050	Confirmed Test for <i>Escherichia coli</i> (Class O)	199
7.060	Fluorogenic Assay (MUG Test) for Detection of <i>Escherichia coli</i> in Solid Media (Class B)	202
7.070	Petrifilm™ Dry Rehydratable Film Methods	203
7.080	Pectin Gel Method	215
7.090	<i>Enterobacteriaceae</i>	221
7.100	Cited References	224
7.110	Other References	226
Chapter 8:	Tests for Groups of Microorganisms	227
8.010	Psychrotrophic Bacteria (Class O)	227
8.020	Gram-Negative Bacteria (Class B)	228

8.030	Thermotolerant Bacteria (Class O)	229
8.040	Thermophilic Bacteria (Class O)	230
8.050	Proteolytic Microorganisms	231
8.060	Lipolytic Microorganisms (Class B)	233
8.070	Lactic Acid Bacteria (Class B)	235
8.080	Enterococci (Class B)	237
8.090	Aerobic Bacterial Spores (Class B)	239
8.100	Anaerobic Sporeformers (Class B)	240
8.110	Yeast and Mold Counts	242
8.120	Cited References	246
Chapter 9:	Microbiological Methods for Dairy Products	249
9.010	Fluid Milk Products: Shelf Life	249
9.020	Preliminary Incubation Method for Processed Milk Products (Class B)	251
9.030	Concentrated Milk Products	252
9.040	Ultra-High-Temperature Processed, Aseptically Packaged, Low-Acid Products (Class B)	254
9.050	Dairy Products	255
9.060	Butter, Margarine, and Related Products	257
9.070	Cheese	258
9.080	Yogurt and Other Fermented Milk Products	261
9.090	Ice Cream and Related Food Products	263
9.100	Cited References	265
9.110	Other References	265
Chapter 10:	Direct Microscopic Methods for Bacteria or Somatic Cells	269
10.010	Introduction	269
10.020	Direct Microscopic Count	270
10.030	Cited References	279
10.040	Other References	280
Chapter 11:	Methods to Detect Abnormal Milk	281
11.010	Introduction	281
11.020	Cowside Tests	281
11.030	Laboratory Tests	285
11.040	Laboratory Tests to Detect Abnormal Goat's Milk	289
11.050	Cited References	290
11.060	Other References	292
Chapter 12:	Detection of Antibiotic/Drug Residues in Milk and Dairy Products	293
12.010	Introduction	293
12.020	Growth Inhibition Tests	294
12.030	Enzyme Substrate Tests—Beta Lactam Specific	302
12.040	Receptor Assay Tests—Beta Lactam Specific	305
12.050	ELISA Tests—Beta Lactam Specific	312
12.060	Sulfonamide Assays	316
12.070	Tetracycline Assays	318
12.080	Chloramphenicol Assays	320
12.090	High-Performance Liquid Chromatography (HPLC)	321
12.100	Assays for Other Inhibitors	322
12.110	Cited References	322

Chapter 13:	Microbiological Tests for Equipment, Containers, Water, and Air	325
13.010	Introduction	325
13.020	Tests for the Microbiological Quality of Air	325
13.030	Tests for Water Supplies	328
13.040	Tests for Equipment and Containers	328
13.050	Cited References	338
Chapter 14:	Alkaline Phosphatase Methods	341
14.010	Introduction	341
14.020	Scharer Rapid Visual ALP Method (Class O)	344
14.030	Scharer Spectrophotometric ALP Method	351
14.040	Rutger's Visual ALP Method	353
14.050	Fluorophos® Fluorometric ALP Method	355
14.060	Charm Chemiluminescent ALP Method (Class A1)	358
14.070	Cited References	361
14.080	Other References	362
Chapter 15:	Chemical and Physical Methods	363
15.010	Introduction	363
15.020	Acidity Tests	363
15.030	Adulterant Tests	374
15.040	Ash Tests	380
15.050	Chloride Tests	385
15.060	Contaminant Tests	391
15.070	Extraneous Material Tests	403
15.080	Fat Determination Methods	408
15.090	Lactose and Galactose Tests	434
15.100	Minerals and Food Additives	440
15.110	Moisture and Solids Tests	442
15.120	Multicomponent Methods	460
15.130	Protein/Nitrogen Tests	480
15.140	Rancidity Tests	510
15.150	Sanitizer Tests	514
15.160	Vitamins A, D2, and D3 in Milk Products, HPLC Method (Class O)	519
15.170	Functional Tests	527
15.180	Cited References	532
Chapter 16:	Milk and Milk Products Standards	537
16.010	Introduction	537
16.020	Nutrition and Labeling Requirements	537
16.030	Compositional Specifications	540
16.040	International Compositional Specifications	546
16.050	Microbiological Specifications	548
16.060	Cited References	550
